edited ▾

Weekly Meeting 137 is happening on Wednesday, 13 December, 2023 from 9:00 AM PDT (16:00 UTC) - 10:00 AM PDT (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#). We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on building the metaverse, whatever that means to you, you're welcome here (T&Cs and Code of Conducts apply).

(bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.)

We are concerned about practical standards, and helping grassroots members. We have a seat at MSF and are part of the W3C by charter. We intend to serve as a social connection between the different organisations, as a less formal organisation.

If you're an observer or here for the first time, this is a general community meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We're glad you're here. What do you like doing?

We welcome you to introduce yourself in the ◀ omi-weekly-meeting chat as we dive into the agenda items.

Agenda

Admin

1. Are we meeting throughout the festive season? Or closing out and starting up when in 2024?
2. Can we start up a new discord server and get it ready so long (not invite people yet)?
3. Can we start up a Matrix server/instance and get it ready so long (not invite people yet)?
4. Can we create a mailing list thingie so long? MailChimp?
5. Can we move the Mastodon server?
6. Please look at the Awesomeness page, share on omi-media if you want to be on here, or edits, add pics etc: <https://hackmd.io/@indiebio/awesomeness-page>. Where to host this? on the OMI website, hackmd, github?

Working group check-ins

omi-experiments check-ins

"Working on something new? Have something to show off? Want help tinkering and building? You've found the right place!"

Recently active threads:

omi-map-metaverse highlights - keyframe and avatarjoy

<https://discord.com/channels/770382203782692945/908045683716681729/1183891423838343338>

[Game spaces](#): Ideas on what to host in metaverse chill spaces for community building.

Conversation

- Whats the top two priorities for OMI? And what's the top two most urgent priorities for OMI right now?
- Nostr - omi-general conversation "how will nostr or the ideas behind it affect the metaverse and what you guys think about this protocol."
<https://discord.com/channels/770382203782692945/830454514682167356/1182562517839523931>
- "tiny acts of participation" - why online groups are easier to participate in. Re: above question; How do we make dipping in and out easy? Bots? Archive? Wiki?
- What have people been up to this week in the wider world out there? Fun finds?
- What would you do with \$10m? No wrong answers.

TODO:

Learn more about W3C, clean up page

Process the OMI map, a sort of a vision board for what OMI wants to achieve -

<https://www.figma.com/file/6F0kdsO2o4D97RT74m7KkK/OMi-OKR-Workshop-Part-III?type=whiteboard&node-id=0-1&t=sEF02fAfsr7c1x7U-0>

Do a weekly casual chat / Asia-sync (on Twitter Spaces?) Suggest 09:00 UTC. jimmy - info on Twitter spaces?

Past meeting: https://hackmd.io/@XR/omigroup/https%3A%2F%2Fhackmd.io%2F%40XR%2Fomi_10-12-23 and [#430](#)

Working group check ins:

From jin: **Updates on MSF delegates group**

- Had last meeting of the year this week, resuming 2nd week of January
- Presentation was about Sophiaverse / AI project, history of wearables
- Aiming to have charter approved by early January
- Going to update MSF notes over break: <https://hackmd.io/@XR/metaversestandards/>

- Want to have AI bot trained on MSF notes / content (data is all in a github repo)
- Its been a struggle to organize field trip events, we always go back to zoom
- I hope in 2024 we can align on opportunities to collaborate on open source projects

MSF real/virtual world working group - SoloSolipsist. Working on similar problems that knev has been tackling, would be good to get connections. Working on a similar protocol than IPSME. How to determine capabilities between different virtual worlds

Link to slides is here (but requires login) <https://portal.metaverse-standards.org/document/6393?downloadRevision=active>

Keyframe - they said only want to focus on real use cases, e.g. digital twins

2. Critical to keep Discord. Active community here, we do not want to be esoteric.

TODO:

(see chat notes and complete here afterwards :))

** If you would like to be included here, please ping us at #omi-general on discord with 1) the project name, 2) a link to more info, 3) a short description and 4) who to contact. 5) what's the ask **
add XR guild - evo and keyframe to add info.

"I'm ok being Point of Contact for XRGUILD.org and you are welcome to join for FREE before we start with paid memberships" - evo

Two integrations: XRguild.org, MSF - with contact people who are OMI members.

Virtual worlds society is still active - who is our bridge there from OMI? Contact person?

keyframe: VRARA

Metaverse Standards Forum and XRGuild.org

XRSI and Virtual Worlds Society

Voices of VR has talked to us about OMI

VRARA - keyframe. Bunch of local meetups :) evo

AWE.live

OMA3 - Roderick. Have specific working groups, have calls for proposals. Meeting reports are public, can access through MSF, can register (for free)

goal of virtual world museum - connectedness of public sector, portals to other initiatives. "interoperability exhibit"

Whats the top two priorities for OMI? And what's the top two most urgent priorities for OMI right now?

- Physics! Getting physics stuff in glTF done. Standardised, in more engines, into Khronos - Aaron
- Progress on portals. - Roderick
- Field trips, in the virtual world museum - Keyframe, jin
- Outreach to other standards bodies, research side. Community building. Get students, get people who maybe didn't even think they are interested in "the metaverse" but have a project that is sortof relevant.
- get more involvement in open source projects, like a metric of commits on github - to see what is the engagement. So that we can see what wider interest is out there. what are people interested in in this concept of "the metaverse"
- open ecosystem ... what does this mean for the metaverse?
- design system for the metaverse, to be welcoming to non-technical people
- If we do things right, this will be used 100s of years from now. We are building open infrastructures and data transmissions and that will be used forever. It's about the data!
