Backlog comment: ideally work on one ticket at a time, and ideally one person only on a ticket (or as arranged - talk not surprise. Collaborate, not steamroller. We value improvement, not ego.)
This is a tool for communication, not policing :)

Working agreement basics:

- anyone can contribute to the backlog.
 - comments can be converted to task items from discussions and other tickets/issues on the backlog.
 - if you are looking for ways to help, check the backlog to do column first to ensure you are not duplicating work, and the necessary people who want to help can help.
- if you are going to pick up a ticket, leave a comment on the ticket and move it to in progress.
- if you want to help with a ticket that is owned, please drop a comment on that ticket letting the owner know.
- default to prioritizing progress, and communicate kindly
- assuming positive intent.
- the work item should have a clear definition of done before moving from unplanned to to-do.

use a task that was created yesterday in omi media as an example for adding items to the backlog.

New Logo chat

problem solved: the original logo is hard to see as a discord logo.

solution: this new one is easier to see, while holding the same general elements

the logo reflects how agreed upon shapes, and the space between, make for a better outcome.

lets vote! Keep the old, or migrate to the new (and optimize if needed)
