NOTE: New meeting day - Mondays (not Wednesdays anymore)

Weekly Meeting 134 is happening on MONDAY, 20 November, 2023 from 9:00 AM PDT (16:00 UTC) - 10:00 AM PDT (17:00 UTC)

You can add it to your calendar [here](#).

(we're updating this shortly. time zones and phone verification steps are getting in the way)

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#).

We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We're glad you're here. What do you like doing?

We welcome you to introduce yourself in the 📌 omi-weekly-meeting chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

1. New meeting slot. Also, more meetings?

NOTE: New meeting day - Mondays (not Wednesdays anymore)

One more meeting?:

Expanding to other timezones, building a community across continents. But how? One suggestion:

Another meeting, repeating this one's agenda and findings, in a timeslot that works for the side of the world not covered by timezones that work for US/Europe. Ideally have some overlap, continuity.

E.g. 09:00 UTC is maybe, 18:00 Gary's time?

Suggestions?

2. Working groups check in

3. Media strategy, have info pages on:

- what is glTF and why are we working on it?
- what is the teleport protocol and why are we working on it?
- What is MSF, what does the MSF delegates do?
- What is W3C, why do we have (whatever we have) there?
- other?
- things that need improvent -  [Media sync meeting 15 November 2023](#) media#68 (comment)
- (need to finish the blog about new chairs, eek)
- Is there such a thing as a metaverse events calendar, anywhere? Could this be something we can create?

4. Visualising our knowledge

Using the meeting notes to create linked knowledge for newcomers, AI and ourselves to find information easier.

Linked to this revamp the website, github, whatever, do maintenance.

5. Energising our institutional knowledge. Building for second followers.

<https://youtu.be/fW8amMCVAJQ?si=Boz91rvajoW-Sehv>

This group has leaders - the founders of OMI, the people who have been building since the 90's or even before that.

This group has first followers - people like indie who believe in the leaders, and see the benefit of this for other areas.

Who's the second followers, what do they need to join us?

6. Fun finds in the past week or so

Past issues

Weekly game night progress? Still to do - look at what is out there already and join up with that. Make an itinerary. e.g. look at <https://devpost.com/hackathons>

Music in the metaverse? Weekly / monthly gigs?

Share the note on why glTF is important, get involved (still needs edits) <https://hackmd.io/@indiebio/get-involved-glTF-Physics>

Virtual worlds museum crowdfunder now live: <https://www.indiegogo.com/projects/virtual-worlds-museum-webxr-exhibit/x/1781915#/>

Past meeting: https://hackmd.io/@XR/omigroup/https%3A%2F%2Fhackmd.io%2F%40XR%2Fomi_10-12-23 and [#427](#)

next M3 event planned is nov 30th, float parade
a collaboration with theWIPmeetup (<https://twitter.com/theWIPmeetup>)
Need someone to drive the OMI car

**indiebio** 4 days ago Author

Unity opened up some programming things, seeing a lot of development for Apple Pro - lots to tweet about!

also perhaps relevant to notes and knowledge - Flow Immersive (jimmy showcasing) - data telling tool, 3D, web-based

**indiebio** 4 days ago Author

1. Another meeting to get more timezones. thoughts?

jimmy: Could dilute the members, could have the network effect suffer. Would work better if running at scale.

**indiebio** 4 days ago Author

solosolipsist: Keep this meeting, have a casual meetup for people in the East, something relevant to that timezone, an Asia-sync, working meeting, something..

**indiebio** 4 days ago Author

Gary: One meeting probably works the best. To keep everyone on the same page.

**indiebio** 4 days ago Author

3. Media strategy

What lives on github, what lives on Discord, it gets confusing. The one really awesome thing is the chat bar in the meetings and it is very hidden to find.

TODO: make a formal proposal to split out OMI from AngelXR Discord channel

indiebio 4 days ago Author

TODO: find out (from Godot channel?) how to make some channels not visible by default to have a clearer, simpler entry experience on Discord

TODO: Make an "awesome" list that is a great landing point for newcomers. Inspiration:

<https://github.com/sorrycc/awesome-javascript>; <https://github.com/V-Sekai/awesome-v-sekai> - good landing page idea

indiebio 4 days ago Author

the media group's job is to find good things and then share them!

indiebio 4 days ago Author

3. Media strategy.

What is the strategy, what are the metrics, how do we reach those metrics? Early days, determining this.

what is the minimum bar of organisation that we need, to start with full on outreach?

- Good landing page (pretty good already)
- Good intro pages to what we do as specific groups, and how to get involved (for tech and for less techy/more normie)
- Other?
- TODO: Do a proposal, this is a cleaned-up website, Discord ... and then we can vote on it before we ramp up marketing.

indiebio 4 days ago Author

Discord clean up, some channels like omi-content-portability is relevant but needs re-organisation or combining with others. If there's outrage about ✕-ing them, this is an option, to fold them into another relevant channel.
