Weekly Meeting 103 is happening on Wednesday, April 12, 2023 from 9:00 AM PST(16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#). We regularly use the # omi-meeting-chat channel for text chat.

## Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

## Agenda

- [Vote passed: apply for 501c3 fiscal sponsorship under OC #376](#)
  - we have to fill out a document
  - [Once 501c3 is in place, which grants do we want to apply for first? #362](#)
- [Proposal: GPT-4 Access for OMI Group Champions #374 VOTE](#)
- banning and policies in place for member disputes
  - quick working agreement exercise?
- MSF election coming up
  - it's important that representation on their board represent small orgs and independent creators like us. We want someone on that board that represents us.
    - we will have an election for actual board seats

- tonight we will have retro pt III and clean up the backlog per our discussion last week. Meeting in [discord](#)
-  [Proposing OMI-Experiments group](#) #368  [Proposing AI collaboration group](#) #372

We need people committed to actually publishing the content we create, etc. This may not solve our problem.

MTV for example has offered to do more publishing needs to be empowered to go after publishing. So we need

"Maybe we can use chatgpt to summarize transcripts"

**mrmetaverse** last week Maintainer Author

we have lots of notes, how can we use something like gpt-4 to refine policy documents and get those in place?

**mrmetaverse** last week Maintainer Author

a collaborative doc that highlights what we know needs to be in this policy

**mrmetaverse** last week Maintainer Author

- where we work (tools etc.)
- when we meet
- 👉 defined in the README

lets discuss this

- how we collaborate (respect)
- how we handle conflict

## RE: Handling Conflict

Proposed: Standard Operating Procedure to identify an Omsbud for OMI who can assist as a neutral party for conflict resolution, etc.

- create a form to submit requests
- between champions we can identify who will serve as omsbud for that circumstance

## How we collaborate

Proposed: is there a list of members? How can we wrangle those signing up on W3C page, versus those in github, and discord? - -

- How can we welcome newcomers, direct them to resources, how they can contribute or donate, where bounties and work items are, our website, our working groups, etc.
- maybe when you sign up to be a member you get a 15 min welcome walkthru

Proposed: Orientation after every weekly meeting

- intro to our github and discord
- how you can get involved

edited ▼

Paste our rules at the top of discord.

we are running under what MSF has as their code of conduct.

we are operating under w3c guidelines as well. Are they different or in conflict?

**mrmetaverse** last week Maintainer Author

can we add more info to the website about "how to get started with OMI"

- include open collective link
- w3c link
- github and discord links
- a little orientation about getting involved

**mrmetaverse** last week Maintainer Author

We need to define our policies, and what happens *if*.
