SeanRP1 feedback on AWE, and RP1 demo live - great reception.  
AWE had a lot of comments on the friction of XR.  
RP1 is a browser, and a spatial fabric - two components

TODO [@evo](#), [@indiebio](#) [@aaronfranke](#)

1. shape an email request about the glTF challenges around [? : Add KHR\\_interactivity](#)  
[draft KhronosGroup/glTF#2293](#)
2. extending memberships to grassroots people - Basically we'd like them to extend a similar offer as MSF to a small number of open source developers - so that's a simple request. open Khronos to the OSS
