Weekly Meeting 17 is happening on Wednesday 8/18/2021 from 9:00 AM PDT - 10:00 AM PDT

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngelIXR Discord](#).

Agenda

- Screenshot attendance, Welcome new members, review process for Submission and forming working groups
- Working agreements / playbook follow-up
 - A quick statement from Jesse
- Website
 - A group is getting together this Sunday 8/22/21 at 10am PDT / 1pm EDT, to apply some of our recent changes to the existing site, and get a new iteration live.
- glTF Sub Group
 - OMI Audio Emitter Extension
 - Blender Tooling
 - Hubs -> OMI glTF Transform CLI
 - Robert created a brainstorming [list](#)
- Discord Bot
 - progress update
- World Exploration
 - schedule next outing
- First Lightning Talk (prev Demo Days) event (~~August 26~~)
 - tentative event time moving to September
 - [sign-up form](#)
 - ☒ **Create a future system for working groups to demo internal findings with each other.** #59
- Screenshot end attendance (for those who arrived late)

Add ons:

- Virtual World URIs

Notes for today's session are available on [hackmd](#)

quick follow-up on Virtual World URIs [#23](#) discussion:

- [@jamesjackson](#)'s comment re: Open AR Cloud and the idea of considering AR locations similar to other virtualized world addresses
- [@jfenton](#)'s ideas around creating a neutral system app to help users actually consume virtual world URIs locally [🗨️ Virtual World URIs #23 \(comment\)](#)
- [@technobaboo](#) ideas around potential overlap with Stellar Mesh/Constellation
- ... discuss relevant next steps (schedule a focused brainstorming meeting? is there sufficient interest to propose a subgroup?)

I started a [list](#) of possible glTF extensions for our community to work on next. I'd love more suggestions and input on the proposals I've made.

Re: Website

A group is getting together this Sunday 8/22/21 at 10am PDT / 1pm EDT, to apply some of our recent changes to the existing site, and get a new iteration live. We can iterate on it from there, but probably have more than enough to work with for now.
