Weekly Meeting 113 is happening on Wednesday, June 28, 2023 from 9:00 AM PST (16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#).
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- MSF new membership process: (no answer?)
 - [New membership form](#)
 - [Register as POG \(Pre-qualified Organization\)?](#) (completed? Did we nominate?)
 - [MSF new sign-up process](#) #399
- Mapping the Metaverse [## mapping the metaverse](#) #391 check-in
- [Once 501c3 is in place, which grants do we want to apply for first?](#) #362
- Jin submitted a prop [Sponsoring GitHub Copilot Business Accounts for Dedicated OMI Volunteers](#) #400

UPDATES:

- MSF delegates
- Media group
- Avatar interop group
- GLTF group
- World Hops

MSF Delegates

- pog submission is ready to send, needs a review to send in
- ready to send today
- the group voted in #omi-vote on discord, and we will nominate **@funksoup** to represent OMI (and POGs overall) on the MSF board.

OMI-media

- overlap with the mapping the metaverse initiative
- considering getting content out about it (blog, video, etc.)
What channels are you using for social?
- not finding value really from Twitter, Masto, or Reddit
- Some of us are on BlueSky
- Twitter is still valuable for tweeting content updates
 - what if we automate cross-posting to twitter, masto, and bluesky?
 - MTV969 to volunteer to own this
- many are on LinkedIn these days.
- Youtube: any video content planned?
 - playlist: can we make it easier for our community to cross-post their videos to the OMI youtube?
 - topical playlists

- weekly meeting summaries (<https://www.youtube.com/watch?v=KRF6zdmfjHc>)

Jin shared more info about the virtual podcast studio

- virtual production in action: <https://youtu.be/bhiQ8fyrbNM>
- discord nitro enables virtual greenscreen bg removal
- spicy headline: cohosting a show with AI
 - Rob L. comes to mind

Jins proposed "Sponsoring GitHub Copilot Business Accounts for Dedicated OMI Volunteers"

-  [Sponsoring GitHub Copilot Business Accounts for Dedicated OMI Volunteers](#) #400
- improves code quality and productivity

Here are a few examples of how GitHub Copilot can be transformative for our volunteers:

Reduced Time Spent on Coding: With GitHub Copilot, volunteers can spend less time on coding and debugging, freeing up time to focus on other important aspects of metaverse development.

Improved Code Quality: An AI pair programmer can suggest optimized and efficient code snippets, improving the overall quality of the software we produce.

Increased Productivity: By integrating AI-based suggestions directly in the text editor, volunteers can maintain our workflows without needing to constantly context switch between applications.

Keyframe just donated to OMI, and is happy to see his donation go towards this.
