OMI gLTF Working Group Meeting 2024-04-18 #220

aaronfranke started this conversation in **General**

aaronfranke 1 hour ago Collaborator

This meeting is on 2024-04-18 at 21:30 UTC / 2:30 PM PDT in the [OMI Discord](#) within the "Weekly Meeting" voice channel. During the meeting, we will be using the #omi-gltf-extensions text channel to post links and engage in further discussion.

To be notified of this meeting and others, subscribe to the [OMI Meetings and Events Calendar](#) or add yourself to the @omi-gltf-subgroup role in the #roles channel of the OMI Discord.

The Mee6 recording bot is back! Meetings will be recorded again. The data from these will be available in OMI archive: <https://omigroup.github.io/omi-archive/> We discussed if we want the full audio to be archived, this is generally seen as a good idea, but there are some technical challenges with the file size of the audio files.

We discussed support for KHR_xmp_json_Id including how to handle DCMI metadata and metadata from other scopes.

We discussed some work on OMI_physics_gravity and we did some brainstorming about OMI_vehicle_*. Ant mentioned Rapier uses general-purpose physics joints with motors for vehicle wheels: https://rapier.rs/docs/user_guides/rust/joints/#joint-motors
