We need a partner to help see through the execution of a shared event calendar on our website.

We already have a OMI event calendar here: <https://calendar.google.com/calendar/u/1?cid=Y18wZHB1Z2Y5ZjgzXZE0cWVrbWI2b21xYmptZ0Bncm91cC5jYWxlbmRhci5nb29nbGUuY29t>

This would be a separate shared event calendar.

 - Who is spearheading or point of contact?
 - How will you handle conflict?
 - Ceremonies? (do you want backlog refinement? retrospectives?)

for reference: the gLTF working group is a great exemplar of a working group functioning as a working group

<https://github.com/omigroup/gltf-extensions>

Also the website working group which meets occasionally <https://github.com/omigroup/website>

Can OMI wide meetings be a presentation not open forum? Each working group should be where discussion takes place; while these larger meetings should be a "Town Hall" here is what happened meeting.
