Next champs:

moving to next Friday due to AWE and attendance

blocked on 501c3 with Open Collective (waiting for a response) but once unblocked we can start applying for grants. I have ideas for some early grants I am interested in:

- Grant: WebXR on Linux
- Grant: OMI AI using OMI\_personality and other protocols

How can we make it easier for newcomers to get involved?

- How its done now: Lets do a github and discord walk-thru.
- Any recommended changes for the future
