<https://omigroup.github.io/three-omi/> - there is an NPM package, so linked to the node package management system. It is a OMI three.js implementation that hasn't been updated for a while but now had some work on it. Good to tell the world about. The last thing to do is to push the three-omi something something.

media update: jimmy is working on the May summary of Discord proceedings, almost ready.
Showed a work in progress about the monthly report's look and feel. Nice!
