Weekly Meeting 128 is happening on Wednesday, October 11, 2023 from 9:00 AM PDT (16:00 UTC) - 10:00 AM PDT (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngelIXR/OMI Discord](#).

We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in the 🗨 omi-weekly-meeting chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda:

1. Roundtable

fun, interesting, random or relevant things people have found this week. Please share in the comments.

2. Working group check ins

Revisit sending an invitation about growing the glTF spec group, to students

Media group needs more integration!

Admin: Need a tutorial please on how to use the thing that gives issues that gets dealt with in backlog refinement please (need to create issues for sharing access to calendar to add media group, and to stay on top of the archive, and transcribing using Fireflies)

3. Follow on from last week's meeting

Last week [#420](#)

Research Show and Tell, coinciding with metaverse museum crowdfunder launch. Date changed to 30 October. We need a flyer and a virtual venue (will have a call with Keyframe on Friday)

Nominations for OMI chairs now open, nominate yourself or someone else. Nominations close after next week's meeting. Elections two weeks after that.

More info on roles of Chairs <https://hackmd.io/@mrmetaverse/omi-tasks-audit>;

also: [#157](#)

and [#165](#)

Weekly game night progress?

4. Other

During Champions meeting, chatted about reaching out to Linux foundation members with a 3D logo of their logo on TLF website.

Why? To facilitating booths of OMF / TLF partners and projects into virtual worlds to create a presence "in the metaverse"

Where to host this? Sketchfab

Political question on which hosting worlds?

Could a TLF partner sponsor a hackathon that creates their booth?

They can set the constraints, which world they want etc. They sponsor small prizes, gift cards or whatever, it's a marketing push for them

MSF Standards Register workgroup's catalog. OMI could port it into the Metaverse.

From a urban transformation funding call, found some initiatives that include metaversey things, like XR and digital twins:

https://dutpartnership.eu/funding-opportunities/dut_call_2023/

Story in Motion: Science + Art

Sensing Mobility Environments project will co-creatively explore mobility environments as sensory experiences of the city through human immersion and participation of senses.

<https://dut-call-2023.b2match.io/participants/957>

Recyclo.coop

Urban platform for the circular economy

A set of innovative, decentralized, economically sustainable solutions!

a dynamic group of entrepreneurs, could be a good metaverse case study.

Bastian Pfleging

Community-Driven Urban Transformation: Empowering 15-Minute Cities through Augmented Reality Engagement

<https://www.bastian-pfleging.eu/>

<https://www.metvibee.com/>

Create and build sustainable cities of the future, together with extended reality today.

Democratising Urban Design

Istanbul digital twin

Apparently researching pervasive games is a thing. Need to reach out.

(no longer active: <http://www.mobilelifecentre.org/people>)

rather than making *yet another* event for the weekly chill events, look at what is out there already and join up with that. Make an itinerary. - jin

MSF is also asking about a hackathon, they are interested in hosting one. This needs a bit more thinking about formalising the proposal.

Co-working happens more in M3.

**indiebio** 3 days ago Author

Instead of re-inventing the wheel, what other hackathons are happening, can we collaborate and be more effective with resources? Please share any links or leads or ideas where to go look, here or in Discord!

**indiebio** 3 days ago Author

2. Working group catch ups.

Meticulac will help be an accountability buddy
