Weekly Meeting 94 is happening on Wednesday, February 8, 2023 from 9:00 AM PST(17:00 UTC) - 10:00 AM PST (18:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#). We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers

Working Group Updates:

- [MSF delegates](#) (setting up the repo)
- [UX Research](#)
- [Scripting group](#)
- [glTF Extensions Group](#)
 - Progress on OMI_ref and authoring extensions

- [Media Group](#)
- [M3 avatar interop](#)
- [OMI Website update](#)
- any others?

Discussions:

- new draft protocol submission [🕒 Teleport: a real-time network protocol for VR #356](#)
- Retro is was last week on 2/1/23, a number of action items emerged and were then refined during the OMI Champions meeting on 02/03/23
- Christine Perey sent an email about OMI as a MSF POG.
- [100 week celebration?](#)

Next week:

Future demo themes:

- `OMI-audio-emitter` exploration and demo
- `OMI-collider` exploration and demo
- `IPSME` and Me
- `Generative and AI tooling`
- Any other suggestions?

I wrote an article last week that included a blurb about OMI. It said you can submit your own draft protocols for review. This individual reached out asking how to do so. They immediately followed the instructions and submitted. I think this is a bright future for OMI. Spread the word.

Also since I can't make it yet, can we explore turning the scripting group into a protocols group? Basically a group to review and explore any protocols (outside of or maybe before glTF extensions).

Email received 2/7/23

During the Standards Register WG meeting today, we discussed the OMI as an MSF POG. You can see the trail of comments/concerns in [this issue](#).

You will see in the thread of this issue, the concern I expressed that OMI is (or was) a W3C Community Group. You have provided the W3C address as that for OMI.

W3C is already a POG so any work of the OMI would be entered "under" the W3C in the new item register form (a link to the form to be sent to you once we make a determination about the status of OMI).

If you have any comments, discussion or other interpretation which would help us to make final decision, please write in the GitHub [issue here](#).

I was having trouble understanding what is being said here. It appears like they want to remove OMI and only have W3C, but I may be misunderstanding.

We were able to confirm that we are on the same page. MSF delegates attended a oversight meeting this morning regarding the POG status and fee structure.

My discord keeps crashing on mobile. Packages are updating on Linux. I may actually miss today ☹

I recommend a MSF update today but prob no other working group updates needed.

Can we review the draft submission, review the MSF thread about POG, and then review the champions work on Friday?

Maybe a demo after
