06/22/22 Weekly Meeting 61 Agenda #243

antpb started this conversation in **Weekly Meetings**

antpb on Jun 22, 2022 Maintainer

Weekly Meeting 61 is happening on Wednesday June 22th, 2022 from 9:00 AM PST(16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#).
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers

Announcements:

Lean Coffee? Any demos from the community?

Working Group Updates:

- [OMI Website update](#)
- [Scripting group](#)

- OMI developer hour
- [glTF Extensions Group](#)
 - Progress on OMI_ref and authoring extensions
- [Media Group](#)
- any others?

Engaging with other groups

Do we want to engage as a group, or as individuals in the Metaverse Standards Forum?

Metaverse
STANDARDS FORUM™

Strengths:

- Maintain synergy with others
- maintaining independence
- potential alignment with bigger orgs (different angle)
- No charge to participate

Weaknesses:

- trademark suggests its not open open

Opportunities:

- Chance to champion why the Open Metaverse Matters
- Collaboration opps with other groups

Threats:

- Potential corruption of major players

Motion was made to continue convo next week and take a vote.

Join section has since altered the language to discourage individuals from signing up, and should be joined by companies only:

If you are an individual not affiliated with a member organization, we would welcome keeping you apprised of the latest Forum updates through you signing up to our newsletter.

Help Us Build the Open Metaverse

Hosted by the Khronos Group, the Forum membership is currently open to for-profit or nonprofit organizations, including **companies, standards organizations, industry associations or universities** at no charge.

There are two levels of Forum membership. 'Participant' organizations can engage in forum discussions and projects. 'Principal' organizations are those that also wish to assist in Forum oversight and may wish to fund Forum projects.

If your organization is already a Forum member, you do not need to execute an additional agreement, you can immediately [create an account](#) on the Forum Portal using the email address issued to you by your organization.

If you are an individual not affiliated with a member organization, we would welcome keeping you apprised of the latest Forum updates through you [signing up to our newsletter](#).

If your organization is not yet a member and would like to join, please ask an authorized signatory to review and complete this sign up form and agreement:

[SIGN UP FORM AND AGREEMENT](#)

lyuma on Jun 23, 2022

Collaborator

It does not limit to only companies: after companies, it also includes "standards organizations, industry associations or universities at no charge".

In my view, it seems reasonable to expect that the chairs on behalf of the OMI [W3C Metaverse Interoperability community group](#) should have standing to join, if we decide to.

mikeskydev on Jun 24, 2022

You're right, I shouldn't have specifically said companies in my original post, but I was focusing on [or as individuals](#) posed in the original question, which now doesn't seem possible. I do agree that the community group as a whole could (and should) join.
