draft definitions

distinction	description
Champion	<i>Individuals in the OMIgroup who have been elected to take on leadership roles.</i>
Allies/Fellows/Friends	<i>Groups who align with OMIgroup principles.</i>
Sponsors	<i>Contributors to OMIgroup who expect something in return (such as recognition). Event Sponsors only relate to specific events.</i>
Donors	<i>Financial supporters of OMIgroup who do not expect anything in return.</i>

proposed agenda points:

☐ **Review draft OMI role definitions / last meeting's notes.**

• ▶ Details

- ☐ **Gather updated champion availabilities, preferred areas of focus, and compare with needs/milestones on the OMI radar.**

- ▶ Details

- ☐ **Review OMI Treasury / Budgeting:**

- ▶ Details

- ☐ OMI fiscal development discussions (next steps? subgroup <=> co-champions sync?)

- ☐ ☒ **Proposed migrations: Jitsi* and ProtonMail/Cal and Element/Matrix #289**

re: non-profit resource requirements:

- estimated \$10000 initial funding to cover legal filing and bookkeeping:
 - \$200/month bookkeeper (ideally curate internally but potentially outsourced)
 - charter
 - filing and legal costs

- treasurer on the board and "knowable to the IRS"
- meeting minutes
- long term strategy (may take several months to work across gov't filing steps/approval)
- ACTION: schedule a workshop (probably with whole community)

re: dework

- rough notes overhead @madjin
 - option to use discord/token/role to manage and administrate dwork tasks
 - potential \$500-\$1000 budget allocation could make sense to run experiment with one workgroup group as a trial?
 - low hanging fruit might be lightweight tasks:
 - notetaking during meetings
 - graphics/badges
 - changelogs/summaries
- humbletim questions:
 - <https://gnosis-safe.io> as a way to achieve routine consensus across (elected? champions? budget managers?)
 - how would literal budget allocations flow start-to-finish through proposed workflow?
 - what steps are involved (and which stakeholders are necessary/optional) in order to route through the system?
 - <https://coordinape.com/> -- "solution to contributor rewards, feedback, and all things people"
 - would it be possible to purely practice/prototype as a first step? (ie: intentionally avoid high risk tasks or creating tangential burdens on ongoing existing efforts (until proven out))
