Weekly Meeting 175 is happening on Wednesday, 3 September 2024 from 9:00 AM PDT (17:00 UTC) - 10:00 AM PDT (18:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting in the omi-weekly-meeting channel of the [OMI Discord](#).
We regularly use the # omi-meeting-chat channel for text chat.

#Agenda

check in, shootin's the breeze

Avatarjoy: The OpenSimulator event keyframe mentioned as inspiration for the OMI festival idea is a recent one similar to the yearly OSCC AvaCon organizes for developers/users of OpenSim which will happen Dec 6-8th this year. In that event we do have braoder open source metaverse talks/presentations and if have a multi region expo area if OMI wants to have a booth there we could sort that. Yes you could build outside of that and import obj into that. Just let me know if any of that interests OMI.

Media option: "Day in the life" of people working on the metaverse - Discord conversations that could be great for students.

What does it mean to be building the metaverse?

What does it mean to have implementers, what does it look like?

Aaron: We should use this time to try and get OMI standards implemented in more apps and such.

Add support for importing OMI seats, OMI vehicles, and more into Hyperfy, Substrata, etc.
