Weekly Meeting 132 is happening on Wednesday, 8 November, 2023 from 9:00 AM PDT (16:00 UTC) - 10:00 AM PDT (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#). We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We're glad you're here. What do you like doing?

We welcome you to introduce yourself in the 🗨 omi-weekly-meeting chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

1. Minutes and notes and archive organising:

Are the meeting notes and info and archive links easy to find for people? I have had two newbies asking for help this week. Asking for help is awesome, getting stuck finding things, not awesome.

How can we play around and prototype visualising this? Dashboard, Obsidian, Zettelkasten? The raw data is well documented in github, hackmd + fireflies.ai and the archive, can people take a copy of test data, use that and add a visual layer in however they want and we see what works?

2. Meeting times:

- mrmetaverse talking about cadence, media after weekly meetings <https://www.when2meet.com/?22173204-dBuvH>

3. Working group check-ins

4. Let's discuss these slides from Leonardo Chiariglione about Interoperability at the Shanghai Metaverse Summit

[ShanghaiMetaverseForumSlides.pdf](#)

There's 13 slides, we don't need to cover all of them in one go.

5. What do you want from OMI? How can we as a community change how we do things or improve to serve your needs?

Two weeks ago we introduced ourselves again - [🗨️ 2023-10-25 Weekly Meeting 130 Notes/Agenda #423](#) (reply in thread)

6. Fun finds in the past week or so

Past issues

Weekly game night progress? Still to do - look at what is out there already and join up with that. Make an itinerary. e.g. look at <https://devpost.com/hackathons>

Share the student note thing, why is this important.

Virtual worlds museum crowdfunder now live: <https://www.indiegogo.com/projects/virtual-worlds-museum-webxr-exhibit/x/1781915#/>

Past meeting: https://hackmd.io/@XR/omigroup/https%3A%2F%2Fhackmd.io%2F%40XR%2Fomi_10-12-23 and [#425](#)

Meeting cadence and media and meeting stuff.

Trying media meet-ups for 15 or so minutes after the weekly meeting to keep the momentum.

mrmetaverse is updating the meeting times and readmes and fill a proposal to vote on it to keep things updated.

/giphy we can rebuild

Working group check ins

- media is being regenerated.
- MSF not much but the conference is continuing energy - also, M3 has a working metaMike agent (magick AI) in their discord, go check it out. what's working well is generating prompts for storyboards
- AI bot thing that mrmetaverse will work on. aside, where can we send people to learn more about AI? M3 builder community is good, or just ask specific questions :) OMI_personality is an extension for an asset to have a personality.
- reminder of OMI-experiments Discord channel for "things that could become a working group but might also fizzle out" for people to try things and find things out and play.

4. For learnings, please ask if you want to learn more, like Gary did here, please also share resources in response, where things are explained in everyday language.
e.g. mrmetaverse has a youtube and a post about interop: https://mrmetaverse.substack.com/p/ill-take-my-data-with-me?utm_source=profile&utm_medium=reader2
and Knev has more academic articles and youtube too: <https://www.youtube.com/@knevelsteen/videos>
