Weekly Meeting 89 is happening on Wednesday, January 4, 2022 from 9:00 AM PST(17:00 UTC) - 10:00 AM PST (18:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#). We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers

Working Group Updates:

- [MSF delegates](#) (setting up the repo)
- [UX Research](#)
- [Scripting group](#)
 - OMI developer hour*
- [glTF Extensions Group](#)
 - Progress on OMI_ref and authoring extensions

- [Media Group](#)
- [M3 avatar interop](#)
- [OMI Website update](#)
- any others?

Discussions:

- OMC
- This is a time to build. What can we build?
 - Adding OMI to the Metaverse Street Jin demoed
 - M3 recently started a shop for wearables. This is a great example of things we could be doing and participating in.
 - Let's build right now.

Next week:

Future demo themes:

- `OMI-audio-emitter` exploration and demo
- `OMI-collider` exploration and demo (December 7!)
- `IPSME` and Me
- `Generative and AI tooling`
- Any other suggestions?

OMC updates

- after careful consideration, OMC has decided to make all of the online streams free for everyone. They are even issuing refunds for anyone who bought a virtual pass.
- They now only using youtube for live stream, and will share the stream codes we need. Anyone can host a watch party.

This next part is very important and out of the scope of what I can respond with alone:

- By the end of this week, OMC would like a list of the tech requirements we have for our booth. There are some constraints: Power and access to the Internet. We are all sharing one wifi at the event, and the availability of power strips is limited. They will need to plan for our needs to ensure our booth is in an ideal space to get the wifi/power we need.

- They would also like to know the logistics of our booth usage. i.e. are we having various panels/shifts? What does the overall layout of that look like? (1 hour panel, 45 min break, 1 hour panel, etc.)

Who do we know that wants to host a watch party in their world or platform?
