Weekly Meeting 92 is happening on Wednesday, January 25, 2022 from 9:00 AM PST(17:00 UTC) - 10:00 AM PST (18:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#). We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers

Working Group Updates:

- [MSF delegates](#) (setting up the repo)
- [UX Research](#)
- [Scripting group](#)
- [glTF Extensions Group](#)
 - Progress on OMI_ref and authoring extensions

- [Media Group](#)
- [M3 avatar interop](#)
- [OMI Website update](#)
- any others?

Discussions:

Retro is next week at 22:05 UTC on 2/1/23

Backlog refinement / These three items standing out -

- <https://github.com/omigroup/omigroup/milestone/1>
- [🌱 Cultivate and boost our W3C technical leadership - split the chairs accordingly based on better fit.](#) #261
- New proposed extension related to avatar personality: [🔗 OMI_personality proposal](#) gltf-extensions#133
- OMC planning will resume "in a few weeks"
- This is a time to build. What can we build?
 - maybe something for our [100 week celebration](#)?
- Let's build right now.

Next week:

Future demo themes:

- `OMI-audio-emitter` exploration and demo
- `OMI-collider` exploration and demo
- `IPSME` and Me
- `Generative and AI tooling`
- Any other suggestions?

Week 100 celebration

OMI week 100 is in just 8 weeks! What should we do? I can create a new ticket as well.

see [#333](#)

What this community is and what we are not

- Would love to clarify what we are and what we are not.
- We set out to create standards and protocols. W3C provides a set of tools as a shortcut to make those standards under IP protection framework.
- Diversifying our structure to match our efforts.
- We are a place for trying things out, hacking together, and doing things in the open.
- We inform standards-making groups, through our working groups. We have some working groups that do create standards.
- There are misconceptions about OMI about whether or not we are a standards group.
- We are making standards and collaborating with other standards bodies.
- We make the tech specs, the readmes, the rules, testing, implementation, and more.
- We have been creating a lot of the infrastructure that makes these things possible.
- When others come to our website and want to see how we fit into the rest of the Metaverse, are we clear and are our stated intentions aligned with our actions?

Include but transcend the individual egos in the room. We don't want to be a community working on standards that feels separate from everyone else.

"yesterday I was in a meeting with OMF to discuss their goals... their main goal is to make everything readable in theory by other tools. Essentially injecting the slots needed into glTF that any proprietary format could plug into... as an open spec they can choose to use".

"this would solve some issues, but the main problem is that when you have updates occur in some of these APIs, and the gltf file has a particular string in it, and one side changes, the other side must change, else the comms would be different" - check out IPSME too ;)

It is so important to collaborate. It can be a little suspicious when new standards bodies form. I observe their defined intent and their approach. Why did they form anew instead of joining others? Are they putting on blinders or working with other groups, etc.?

MSF

- delegates met before this call today
- going to the oversight group meeting at 9pm EST tonight
- a survey was taken around the community sentiment of the membership tiers they proposed
 - most of us voted no on that survey
- Looking into [ethics in the metaverse](#)
 - a lot of thoughtfulness and experience in this topic
 - proposed working group for ethics in the metaverse.
- Wearables working group
 - needs a repo for the group
 - all other MSF repos are private
 - possibly due to spam
 - what's the alternative we can propose?
 - github feels like it could be more effective if it weren't closed
 - reach out to **@madjin** to get involved
- 3d asset interop group meeting at 11a PT
 - working on recipes for asset interop

M3 Avatar Interop

- building a virtual [studio to talk interop](#)
- bounties live for builders
- looking to reuse socialvr content elsewhere
- <https://twitter.com/dankvr/status/1615437921884205056>
- side note: so good 📺 <https://twitter.com/em0tionull/status/1617658692249473027>
