12/21/22 Weekly Meeting 87 Agenda #326

mrmetaverse started this conversation in **General**

mrmetaverse on Dec 21, 2022 Maintainer

Weekly Meeting 87 is happening on Wednesday, December 21, 2022 from 9:00 AM PST(17:00 UTC) - 10:00 AM PST (18:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#).
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers

Working Group Updates:

- [MSF delegates](#) (setting up the repo)
- [UX Research](#)
- [Scripting group](#)
 - OMI developer hour*
- [glTF Extensions Group](#)
 - Progress on OMI_ref and authoring extensions

- [Media Group](#)
- [M3 avatar interop](#)
- [OMI Website update](#)
- any others?

Discussions:

- OMC updates this week  [Open Metaverse Conference](#) #309
 - **I have been tracking two main items related to this:**
 - Online element: Watch parties, streaming capabilities, virtual participation (like Q+A)
 - Ticket prices: Particularly for the virtual element... can we make it easier to make the price free or almost free? Maybe a promo code, or the watch parties could allow people to attend without needing a ticket at all. Furthermore, for anyone who may be volunteering in-person at the conference (like our friends at Croquet have volunteered to do) we need to ensure they have a in-person ticket as well. Specifically, these things tend to result in open source builders being exploited for *free work*. This group does not intend to be working for free.
 - OMC needs our help: Regarding the online aspect of this conference. The vendor they are using for streaming has suggested a method for watch parties that requires logging into their platform. What can we do?
- This is a time to build. What can we build?
 - Adding OMI to the Metaverse Street Jin demoed
 - M3 recently started a shop for wearables. This is a great example of things we could be doing and participating in.
 - Let's build right now.

Next week:

Future demo themes:

- [OMI-audio-emitter](#) exploration and demo
- [OMI-collider](#) exploration and demo (December 7!)
- [IPSME](#) and Me
- [Generative and AI tooling](#)
- Any other suggestions?

MSF

- oversight meeting last week
- reviewed recent proposals (like avatar interoper group)
- **there was a membership structure discussion as well**

Membership Structure Discussion

Everything is being made more clear as a result of these discussions. The MSF focus has been on intent. Other observations of the effort include "the discussion is professional"

OMC

- Jamil, Chris Mahoney, and Tania with L1 isare joining us today.

-  **Open Metaverse Conference** #309

Origin

Recognized OMI as an org that builds and creates and explores together. They are interested in showcasing OMI in some fashion. Thinking about OMI relationship as a long-term thing. With this being the first OMC we want it to be impactful.

Through brainstorming a number of ideas emerged:

Enhanced access to OMI group, generally in the event.

Demo Lab - a space for a project OMI feels should have a booth

"The most actionable in the short term is to lean into a demo lab", or space in the conference that they are giving out spots to interesting projects. Is there a project that is aligned with these criteria, that OMI feels is worth paying attention to?

Live streaming/watch parties.

- This is a must-have for many members of the community.
- This increases the number of vendors and platforms that can participate
- This allows people to attend the conference for no-charge.
- still early
- one person would receive access code and then they can host a watch party
- streaming provider is vimeo
 - why vimeo: "we have two conference tracks, and needed separate functionality for attendees to select their track."
- OMI wants to be able to make it super clear how to attend.
 - L1 to go back to provider to get the necessary info in advance.
 - Chris is familiar with RTMP and can help from L1 side.
 - Evo and avatarjoy can help maintain thread

--- tidy line --- everything below is untidied

Q: Will someone be there watching the chats in the physical space?

- We have some volunteers in OMI to help too

Registration Information

Early Bird Conference Pass - \$649.00

Sales end on 01/02/2023

Includes in-person access to all keynotes, 2 days of sessions, on-site demos and entertainment, breakfast, lunch, and opening night reception

Early Bird All Access Pass - \$2,799.00

Sales end on 01/02/2023

Includes in-person access to all keynotes, 2 days of sessions, on-site demos and entertainment, VIP Lounge access, opening night reception, signed copy of Neal Stephenson's Snow Crash, pre-event VIP party, and additional TBA perks.

Early Bird Virtual Pass - \$49.00

Sales end on 01/02/2023

Includes virtual access to select keynotes and conference sessions.

Press Pass Approval

Sales end on 02/09/2023

Application only. Includes in-person access to all keynotes, 2 days of sessions, on-site demos and entertainment, and designated press rooms at the event.

Approval This ticket / registration type requires you to submit a request for approval by the organizer

Subtotal	\$0.00
Fee	\$0.00
Total amount	\$0.00

Buy Tickets

We want the narrative to be consistent, to blaze forward.

As this grows, we should involve all of the leadership to confirm the proposed terms would be etc. meet again in a champions call with the other leads.

Demo lab

12 places to showcase partners and members of the community and platforms to demo in front of the other participants.

Includes a small booth area, signage.

OMI has a Determine who in the community should get the booth (or does OMI get the booth?)

is there the possibility to showcase various OMI community projects in a singular booth? Like these are proejects from our OMI community.

A: Yes but keep in mind its about an 8x8 space (small)

Ways OMI can share the booth:

- individual groups in rotation: if we want to use it in that way, we should consider a schedule with 2 hour blocks.

- all of OMI, no shifts: if OMI is the booth, we can have a video or something showcasing various community contributions but not in 2-hour blocks.

Demo lab on its own private network with shared bandwidth.

When selecting content, high bandwidth is likely not possible.

Q: Is this booth space throughout the entirety of the event or just set days and times?

- We would like to give VIP preview to VIP and Speaker members on evening of the 7th.
- Booth for the entirety of the conference plus those 2 hours on the evening of the 7th.

OMI to decide what we want to do with the booth to make the most of it.

Avatar builder demo

- super fun!
- we checked out the progress from the avatar builder tool that M3 has been working on.
- I (@mrmetaverse) pulled the [repo](#) and built an avatar on the spot

- 📺 heads up, it is token gated if you pull the repo from github. They are working on that. But if you don't own a webaverse genesis pass, you won't be able to login to the existing UI.
- You can export as glb or VRM 1.0 and it works in some platforms like Webaverse!
