Weekly Meeting 217 is happening on Wednesday, 25 June 2025 from 9:00 AM PDT (17:00 UTC) - 10:00 AM PDT (18:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting in the omi-weekly-meeting channel of the [OMI Discord](#).

We regularly use the # omi-meeting-chat channel for text chat.

Agenda

check in, shootin' the breeze (add agenda points or notes as comments).

Demo's

working group updates: glTF, MSF, media, Virtual Worlds Museum, composable metaverse, experiments, add fun finds in the comments

Specific matters to discuss

- glTF
This page is cool: <https://github.com/omigroup/glTF-extensions>
Shows extensions in different phases of development.
Emails in draft, hopefully sent before end of week.
- resources wiki: <https://github.com/omigroup/omigroup/wiki/Metaverse-resources>
- Definitely need a way to put hardworking members in a spotlight - member page, shining a light, but also (get someone to help with ...) coaching, building confidence...

IEEE call for metaverse research: <https://ieee-isemv.org/call-for-presentations/>

The ISEMV 2025 invites abstract submissions for Presentations that explore emerging ideas, applications, and innovations in Metaverse research. Each selected presentation will be allocated 20 minutes for delivery, followed by a 10-minute Q&A session.

We welcome abstracts that present:

Novel research challenges or conceptual frameworks,

Innovative or impactful work-in-progress,

Real-world applications and products,

Insights from published research or industrial deployments.

This is a unique opportunity to share your work, gain valuable feedback, and engage directly with the growing Metaverse research community.

glTF conversation on what is special about our group, what's in it for existing members, and new members. to do this we need to resolve some unknown undercurrents:

Definitely need a way to put hardworking members in a spotlight:
suggestion: board of things going on - current activities. like a calendar, or a notice board. - try some options.
also encourage people to share what they are working on, links with media engagement.

aaron: opencanvas working group yesterday - having a single root node that represents the whole file -
cross-group problem solving in action!

Godot: opened more PRs for glTF, good progress. Adding a new feature to import glTF directly into
Godot, making this workflow easier for users.

media update from jimmy: spent a little time on the GitHub and it's becoming an impressive collection of wiki
pages so spending a little time to try integrate it with the discord summary will get back to it later today and
update here but looks easy enough to add so with that and the extra voice inputs this is starting to add up
nicely !!
