# 01/26/21 Weekly Meeting 40 Agenda #169

antpb started this conversation in **Weekly Meetings**

**antpb** on Jan 25, 2022 Maintainer

edited ▾

Weekly Meeting 40 is happening on Wednesday January 26th, 2022 from 9:00 AM PDT - 10:00 AM PDT (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#).

## Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

## Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers
- working groups check in:
  - [website group](#)
  - [gLTF working group](#)
  - [WASM working group](#)

## Announcements and Updates

- What does future structure look like Master discussion
  - New Roles in OMI discussion

- Discuss a hackathon as a group: [Proposed having a Hackathon Planning group or participating in others!](#) #173
- Backlog refinement session recap: [Backlog refinement meeting 1: 01/25/22](#) #172
- Open Floor!

Please leave any additional agenda items below in the comments. Thanks!

Are you familiar with our milestones system?

The screenshot shows a mobile view of a GitHub repository's milestones page. At the top, it says '2 Open' and '0 Closed'. There are two milestones listed:

- Organizing our Repo**: 80% complete, 2 open, 8 closed. Last updated less than a minute ago. Description: 'We are continuously refining our processes together. Let's optimize our github strategy for the next wave of Open Metaverse contributors.'
- Future Structure of OMI**: 50% complete, 1 open, 1 closed. Due by February 28, 2022. Last updated 13 days ago. Description: 'This is part of a larger conversation around how we want to structu...(more)'

No volunteers to record, so this session will be only notes.

## RE: Website group

Want to help out? We are seeking images of our community in the Metaverse. Selfies with your group / friends in the metaverse, etc.

- add here: <https://airtable.com/shrZAsV1MA5QJctYx>

Website has been updated to match the figma design. Still need to update some things like hover-state. We are ready to go live, and iterate from there. Pull request to come.

also this pull request: [omigroup/website#49](#)

One other creative way of helping is to photoshop, or take a selfie of your different avatars into a single shot. Help people understand a need for interoperability by demonstrating visually the challenges of traversing across the metaverse as different avatars. If you want to submit a group photo, just make sure the background can be cut out if needed. White, or greenscreen, or clear bg is preferred.

## RE: gLTF working group

- last weeks agenda is available here: [🗨️ gLTF Working Group Meeting 1/20/2022](#) gltf-extensions#51
- tomorrows agenda: [🗨️ gLTF Working Group Meeting 01/27/2022](#) gltf-extensions#52
- tomorrow group will review pull request for audio emitter which is pretty much ready to go
- beginning new spec for colliders and basic physics in gLTF objects (collision boxes, areas for triggered events, specify objects as static bodies for physics or dynamic bodies, etc. Once together we can add basic physics and collision detection in gLTF scenes which will enhance worlds, items, avatars, etc.) Overlapping potentially with WASM group.
- This group is always looking to grow and meets on Thursdays at 22:30 UTC

## RE: WASM Group

Defining scope, and getting aligned around what Web Assembly does.

Spoke recently about APIs and integrating with WASM. discussed programming languages, etc.

No agenda last time but working on that.

Alternating between sessions with an agenda, versus more of a show and tell style. (great example of different working agreements and meeting styles!)

Next week Nova is presenting Stardust!

Input messages, how high level we want to be, and discussing pain points in other engines with dynamic scripting. The week after we will have another structured talk with an agenda. It's loose for now, and still taking shape. If you want to help steer where we are taking this, now is probably the time.

We have a github discussion where we are tracking [Use Cases](#)

Hoping to narrow or refine scope and draft early user stories to help define and track the work.

## RE: Elections x Future structure

- next election is next week 2/2
- We are not locked in, if we need to make changes to the OMI structure during the next term to the overall OMI structure, we can and will. We should not brush this conversation under the rug until next election.
- You can nominate chairs in [this new issue](#)
- Tracking all of this in this Milestone: <https://github.com/omigroup/omigroup/milestone/2>
- The new structure of OMI proposed discussion: [What does the future structure of OMI look like?](#) #157
- OMI responsibilities Audit: <https://hackmd.io/@mrmetaverse/omi-tasks-audit>
- Potential New Roles as a result of the responsibilities audit: [New Roles in OMI and a Call For Volunteers](#) #165
- Review our **core values**, as they help define our structure:
  - We collaborate, driven by research, privacy and accessibility, to make the metaverse more human.
  - We work incrementally, iteratively, and with intent.
  - We are creating a cooperative, sustainable culture of innovation.
  - We empower the people making the metaverse.
  - We must cultivate resiliency by championing diversity, and freedom of choice.

Rick took notes today:

**OMI Meeting Notes - Jan 26**

**Requests**  
 Provide/submit any media related to OMI's work to the group's Airtable to help develop OMI's social media and youtube presence - **Avatar Images!**  
<https://airtable.com/shzZAsV1MA5QJctYx>

**How to understand OMI Github Strategy**  
 Strategy Defined here:  
[https://hackmd.io/msSrKU3NQv2QO8\\_aU5lhHQ](https://hackmd.io/msSrKU3NQv2QO8_aU5lhHQ)

**Meeting #40**  
<https://github.com/omigroup/omigroup/discussions/169>

**Introductions**  
 maxPower - Software developer interested in how we consume content in VR  
 liftedPixel - Metaverse citizen - finds metaverse development compelling and interested in oversight of corporations  
 mtv969 - working on live streaming volumetric video for a live music metaverse on musicscene.com

**Future of OMI**  
 Backlog refinement- Every 4th Tuesday of the month  
 We need a "How to start a working group" Starter Kit  

**The New Roles discussion is discussion 165**  
<https://github.com/omigroup/omigroup/discussions/165>

**Elections are scheduled for Feb 2nd**

The structure will be flexible and restructurable based on the group's needs

**Nomination discussion coming soon**  
 It is essential to have the responsibilities divided among others

**Organizational Roles need to be defined**  
 Current Chairs:  
 • Jesse  
 • Eyo  
 • Robert

**Events**  

**Hackathon Planning Discussion**  
<https://github.com/omigroup/omigroup/issues/173>  
 • Fireside chats  
 • Interviews

**Working Groups**

**Website**  
 Echoparadigm, Shadow, and antpb working hard on website  
 Seeking images:  
 • Photos of you and your friends in VR Chat  
 • Anything that highlights the ideal of people enjoying metaverse-style products  
 Got a reader's digest introduction set up  
 Also got a backlog created on the github  
 Preview at - <https://omigroup.flywheelstiles.com/>  

Every other Tuesday - 23:00 UTC

**Backlog Refinement**  
 Notes:  
<https://hackmd.io/@mrmrmetaverse/HuKPkRaK>  
 Next time there will be more structure  

**OMI Github Strategy Developed:**  
[https://hackmd.io/msSrKU3NQv2QO8\\_aU5lhHQ](https://hackmd.io/msSrKU3NQv2QO8_aU5lhHQ)

**GLTF Working Group**  
 Mauve will be leading a discussion next meeting  
 • Wrapping up audio emitter  
 • Starting up a new spec for colliders and basic physics in gltf  
 • Will allow basic collisions and physics in scenes  
 • Considering Web Assembly integration  
 If you are interested in gltf and standardizing objects between worlds, come check us out!  

Thursdays at 2:30 PM PST

**WASM**  
 Getting on the same page about Web Assembly and understanding what can be done  
 Discussing what input support might look like  
 Discussing pain points of current infrastructures  
 Github discussion  
<https://github.com/omigroup/omigroup/discussions/173>  
 Demo Day on Feb 1  
 Scope and User Story discussion Feb 8th  

Tuesdays at 8AM PST
