04/12/23 Metaverse Standards Forum: Oversight #47

funksoup started this conversation in **Oversight**

**funksoup** on Apr 12 Maintainer

Metaverse Standards Forum: Oversight

Wednesday, 12 April 2023 from 21:00-22:30 EST (01:00-02:30 UTC)

The Forum is now an independent non-profit industry consortium!

- Why and how we incorporated
- Public announcement on Tuesday April 18th
- What it means to your membership

Outreach update

- Get involved in promoting the Forum (and your organization!)

Domain Pipeline updates

- Initiate, discover and engage with Exploratory and Working Groups that are relevant to your organization

New Member Orientations

- Find your way around the Forum and its resources

[--> Google slides](#)[--> Slides as PDF](#)[↑ 1](#)**5 comments** · 1 reply[Oldest](#)[Newest](#)[Top](#)**funksoup** on Apr 12 Maintainer Author

Today's Agenda

- The Forum is now an independent non-profit industry consortium!
 - Why and how we incorporated
 - Public announcement on Tuesday April 18th
 - What it means to your membership
- Outreach update
 - Get involved in promoting the Forum (and your organization!)
- Domain Pipeline updates
 - Initiate, discover and engage with Exploratory and Working Groups that are relevant to your organization
- New Member Orientations
 - Find your way around the Forum and its resources

Ubiquitous Standards for the Metaverse

Industry Standards

Standards are the basis for ubiquitous infrastructure

IEC 60038 Standard voltages
 IEC 60228 Conductors of insulated cables
 IEC 60269 Low-voltage power fuses
 IEC 60320 C13 Connectors and C14 Inlets
 IEC 60884 Household Plugs And Socket-Outlets
 IEC 61970 APIs for energy management

Multiple Standards

Widely adopted platforms require many hardware and software standards

Constellation of Standards

An open and inclusive metaverse at pervasive scale will need the right standards at the right time – from MANY standards organizations!

© Metaverse Standards Forum 2023

This work is licensed under a Creative Commons Attribution 4.0 International License

Page 5

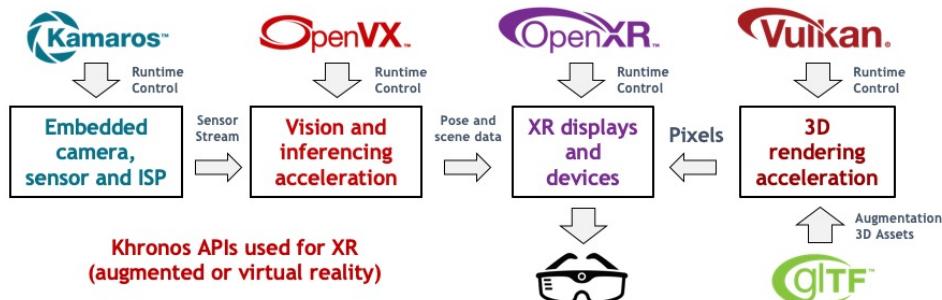

Khronos "Connects Software to Silicon"

Standards Organization founded in 2000
~200 Members ~ 40% US, 30% Europe, 30% Asia

Non-profit, member-driven, open to any company
Well-defined multi-company governance and IP Framework

Open, royalty-free interoperability standards to harness the power of GPUs, multiprocessors and XR hardware
3D graphics, augmented and virtual reality, parallel programming, inferencing and vision acceleration

This work is licensed under a Creative Commons Attribution 4.0 International License

Page 6

Metaverse Standards Forum Genesis and Vision

The opportunity of the metaverse arises from combining multiple disruptive technologies

Making technologies work together requires interoperability

Pervasive interoperability to drive the full potential of the metaverse requires widely available open standards

Creating the constellation of open standards necessary for the metaverse will involve diverse standards organizations

Effective cooperation and communication between standards organizations and with the wider industry will foster the standards we need sooner

A venue for cooperation between standards organizations and the wider industry to foster the development of interoperability standards for an open and inclusive metaverse

Khronos sees industry metaverse activity creating unprecedented interest in its standards

Khronos initiated and funded the formation of a non-incorporated (for a fast organizational bootstrap) cooperative forum to gauge industry interest

Page 7

Better Metaverse Standards – Sooner!

- Coordination and cooperation between Standards Developing Organizations (SDOs) and wider industry
- NOT another SDO! All standardization 'heavy-lifting' continues at existing SDOs
- Open to all, no participation fee, no NDA, no patent licensing
- The Forum exists to accelerate the mission of its members – including SDOs and advocacy organizations

© Metaverse Standards Forum 2023

This work is licensed under a Creative Commons Attribution 4.0 International License

Today - Over 2400 Members and Counting

Wide diversity of organizations, including...

SDOs
Kronos, W3C, Open Geospatial Consortium, IEEE, OMI, ASWF, Spatial Web Foundation, VRM Consortium, XRSI, OMG, Open AR Cloud, OMA3 ...

Platforms
Meta, Microsoft, Sony, Google, Baidu, Huawei, General Motors, Red Hat, Siemens, Tencent, Mozilla, Paramount ...

Tools and Engines
Epic, Unity, Adobe, Autodesk, Otoy, Maxon, Cesium, ESRI, Blackshark.ai, Croquet, Laminar1, Niantic, Ready Player Me, DGG, Manticore ...

XR
HTC, Magic Leap, Nreal, Panasonic, Tobii, zSpace ...

Hardware
NVIDIA, Intel, AMD, HP, Acer, Dell, Qualcomm, Samsung, Sony, MediaTek, Oppo, Lenovo, ZTE, LG ...

Wireless and Networking
China Telecom, Deutsche Telekom, T-Mobile, Verizon, NTT, AT&T, Telefónica, Juniper, Comcast ...

3D Commerce
Alibaba, Alvantor, Avatar, CLO, Browzwear, IKEA, VNTANA, Metaverse Fashion Council, Target, Wayfair ...

Universities and Institutes
Stanford, John Hopkins, Yale (XRP), Queens University Belfast, University Salford, New York Institute Technology, APNG ...

Advocacy
XRSI, AREA, XR Association, VRAR Association, XR Guild, Web3 Marketing Association, International Virtual Reality Healthcare, Swiss Institute for Disruptive Innovation, IOT Consortium, Metaverse Japan, RIAA ...

Page 9

A Unique Cooperative Opportunity

Broad global participation in the Forum enables a unique opportunity for metaverse standards cooperation, coordination and leadership for Forum members to accelerate *their* objectives

Comprehensive, international gathering of industry requirements and expertise in Forum Working Groups

Any Forum member can propose, lead, contribute to, participate in, or monitor Domain Working Groups

Wide visibility and adoption of Forum initiatives

The Forum receives regular requests for cooperation from organizations such as the World Economic Forum and the ITU

The Forum is now incorporated as an independent non-profit industry consortium!

Metaverse Standards Forum Inc.

- The Forum is now incorporated as an independent non-profit industry consortium!
 - The Oversight Committee has been discussing and planning this transition since November 2022
 - On March 22nd, the Principals in the Oversight Committee unanimously approved initiation of incorporation
 - Delaware 501(c)(6) non-profit, non-stock corporation
- Enables the Forum to operate independently
 - Enter into contracts and liaisons, and own a bank account
 - Collect membership dues to fund operations and projects
 - Strengthens liability protection for the Forum and its members
- The Forum now has formal [Bylaws](#) and a new matching [Membership Agreement](#)
 - Designed to enable a seamless transition from the 'old' Forum to the 'new'

© Metaverse Standards Forum 2023

This work is licensed under a Creative Commons Attribution 4.0 International License

Page 11

Maintaining Established Forum Principles

- The goals and daily operation of the Forum are unchanged
 - Enabling industry cooperation for an open and interoperable metaverse
 - We are STILL not an SDO 😊
 - No NDA for Forum activities
 - Consensus-based - one organization one vote
- Continued \$0 dues for Participant Members
 - Access to all Domain Group activities
- Principal Members continue to participate on the Oversight Committee
 - Overseeing the Domain Group pipeline and day-to-day Forum operations
- A new elected Board with directors serving two-year terms

© Metaverse Standards Forum 2023

This work is licensed under a Creative Commons Attribution 4.0 International License

Page 12

Dues structure and amounts have been based on user surveys done the past couple of months within the MSF community. (OMI had a big role in advocating for the inclusion of language that allows for smaller orgs, nonprofits, open source communities and individuals to join):

Principal Dues to Fund Forum Operations and Projects

- Principal dues will make the Forum financially independent from Khronos
 - Dues determined using data from membership surveys – thank you all who responded!
- All Principals can cast one vote in decisions and elections, regardless of dues paid
 - Avoid any concerns over inappropriate 'buying of influence'
- Principal fees tiered on member size, for participation by organizations of all sizes and geographies
 - Reduced fees for non-profits, academic institutions and 'COPPs' (see next slide)

Principal Dues	Tier
\$0	COPPs and Non-profits approved for Principal Fee Waiver Invited Industry Experts (individuals)
\$50 per employee	Micro Enterprises (< 10 emp. AND <\$2M revenue/assets)
\$999	Small Enterprises (< 50 emp. AND <\$10M revenue/assets) Accredited Academic Institutions COPPs without fee waiver
\$4,999	Medium Enterprises (< 250 emp. AND <\$50M revenue/assets)
\$9,999	Large Enterprises (>250 emp. OR > \$50M revenue/assets)

Principal members play a key leadership role in the Forum

Participation in Oversight Committee

May stand for election to the Forum Board of Directors

Priority marketing and networking privileges

Standards Organization Participation

Enabling Participation by a Broad Diversity of Standardization Organizations

Inclusive definition of organizations involved in standardization

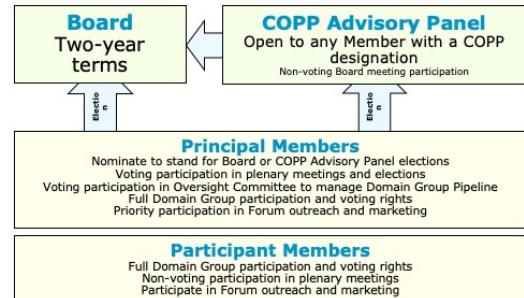

'COPP' is a 'Collaborative Organization with Public Products'

Produces publicly available, metaverse standards-related specifications, policies, recommendations, or open-source software through a collaborative process under representative governance

Members may apply for COPP designation at any time
Typically, on joining or annual renewal
Designation at the discretion of the Board

Once an organization is designated as a COPP
Principal Fees are capped at \$999
May apply for fee waiver to \$0
Can participate through a liaison agreement
Can be represented by designated individual industry experts

COPP Advisory Panel
Any COPP may stand for election to the COPP Advisory Panel
Non-voting Board meeting participation

© Metaverse Standards Forum 2023

This work is licensed under a Creative Commons Attribution 4.0 International License

Page 14

Post-Incorporation Membership Transition

- We do need ALL Members (Principals and Participants) to execute the new [Membership Agreement](#)
 - For protection of all members, we need to ensure that everyone is operating under the same legal framework
 - Terms are almost identical to the current participant agreements, just within an incorporated framework
 - No patent licensing, no NDA
- All members will enjoy existing Membership Rights for 3 months after public announcement
 - Time to review and execute the new agreement as Participant or Principal
 - Then an additional 3 months - but only at Participant level
- New membership agreements will be posted for electronic execution on the Forum Website on 18th April
 - 10% Principal dues discount if join in initial 90 days after public announcement

All members retain current level of membership without payment for three months EXCEPT no Board election nomination or voting rights unless execute new Principal agreement	10% off membership dues for members executing new membership agreement New Principals may request to be elected to an Initial Board	Members that have not executed a new membership agreement are provided Participant-only membership for an additional 3 months	Members that have not executed a new Participant or Principal membership agreement and paid dues (if required) are terminated
Incorporation Publicly Announced April 18th, 2023	Initial 90 Days	Announcement +3 Months	Announcement +6 Months

Page 15

Post-Incorporation Board Timeline

- Board processes for quorum and actions as per bylaws

Initial Board Consent

Khronos President and Managing Director elected as Directors
Terms through to Interim Board Election
Officers Elections
Khronos President as President and Secretary
Khronos Managing Director as Executive Director and Treasurer
Forum President and Executive Director Officer terms through to Full Board Election for continuity

Board may elect up to 5 additional Directors At least one seat reserved for non-Large Enterprises.
Terms through to Interim Board Election
Board may elect Secretary and Treasurer Officers from Directors
Terms through to Interim Board Election

Interim Board Election

Up to total 11 Directors elected by and from Principals
Up to 3 seats reserved for non-Large Enterprises.
Terms through to Full Board Election

Board elects Secretary and Treasurer Officers
Terms through to Full Board Election

Initial Board

Serving for 90 days until first Board Elections
Neil Trevett: President and Secretary
Emily Stearns: Executive Director and Treasurer
Ulrich Dropmann, Nokia
Matt White, Berkeley Synthetic Inc.
Yu Yuan, Versemaker

Slots for two additional Initial Directors that sign the Principals agreement on a [first come-first-served basis](#). Please reach out to Emily directly if you are interested

Full Board Election AGM

Up to total 19 Directors elected by and from Principals
5 seats reserved for non-Large Enterprises.

Board elects all Officers
Terms through to upcoming AGMs
Staggered two year terms

Incorporation Publicly Announced
April 18th, 2023

Initial Board

Announcement +3 Months

Interim Board

Announcement +9 Months

Public Launch of the Forum Incorporation on April 18 at 6 AM PT - everyone is welcome to share on their socials
Draft [press release](#) and [press briefing deck](#)

Forum Incorporation Public Announcement

- Public Launch of the Forum Incorporation on April 18 at 6 AM PT
 - Draft [press release](#) and [press briefing deck](#) any feedback is welcome as comments in the documents
- Pre-briefs with press began this week
 - Financial Times, Protocol, Reuters, The New Stack, Voices of VR, Immersive Wire, CNET, Decrypt, Axios, 80.LV
- Analyst briefs will take place over April and May
 - Forrester, Moor Insights & Strategy, 451 Group, Frost & Sullivan, Strategy Analytics, McKinsey, ABI Research, Info-Tech, Aragon, Jon Peddie, Gartner, etc.
- Coordinated Social Media Campaign - we need your help!
 - Encourage all members to post on the day of announcement
 - Not before 6 AM PT on April 18** - will send 'all clear' on General list
 - Follow the Forum social channels for news and announcements: [@metaverse_forum](#) on Twitter and [LinkedIn](#)

Twitter card for members to (optionally) use on the day of announcement.
Available on the Forum Portal [here](#)

Organizing for Effective Forum Action

1. Gather interoperability Topics from all members

Online input from all members on actionable topics that need improvement today!

Over 200 topics suggested and counting, for example..

Database of metaverse standards
Taking 3D assets between worlds
Asset LODs
glTF / USD interoperability
Avatar customization / animation
3D Apparel and Fashion
Cloth Simulation
Metaverse traversal
Geospatial ontologies
Geospatial streaming
Decentralized User ID
Ethical framework
User privacy
Child safety
Payment frameworks
Etc. etc..

2. Organize Topics into Domains

Consensus on member interest AND where the Forum can add industry value

Topics naturally falling into Domains

Privacy, Safety, Security, Inclusion
Interoperable 3D Assets
Real/Virtual World Integration
Identity (was User Identity)
Avatars and Apparel
Teaching, Education, Certification
Metaverse Standards Register
XR and UI
Metaverse Definition
Networking
Geospatial
Payments and Economy
Runtimes and Object Model
Governance and Advocacy
Video Broadcasting and Meetings
Forum Outreach
Tooling and Creators
Gaming
Health and Medical
Performance and Scalability
Business Analytics

3. Create Domain Working Groups

Make recommendations and work products publicly available

Any Forum member can propose and participate in any Domain Working Group

Forum Working Groups focus on effective, pragmatic projects to enhance short business opportunities:

Generating requirements for standards development
Interoperability testbeds and plugfests
Open-source tooling
Recommendations and guidelines
Etc.

Latest Domain Pipeline Updates

- 3D Web Interoperability Exploratory Group
 - Making the Metaverse fully interoperable with the web and its standards ecosystem
 - Comments welcome in the [3D Web Interoperability Exploratory Group Proposal](#)
- Network Requirements and Capabilities Exploratory Group
 - Plan to request approval on their [Charter](#) at Oversight #16 on 19th April
- Digital Fashion Wearables Exploratory Group
 - Meetings restarted on Monday, March 27 at 8AM PT
- Technical Interop and End User Troubleshooting Exploratory Group
 - First meeting on Thursday, March 30 at 9AM PT
- **Don't forget to [join any Groups of interest on the Portal](#)** for calendar notices and discussions
 - The [Domain Group Pipeline Wiki Page](#) gives an overview of the status of all Working and Exploratory Groups
 - The [Forum Global Calendar](#) provides a holistic view of all Forum meetings
 - All [meeting recordings](#) are available to all members

Page 21

Typical Domain Group Activities

Awareness
Understand the standardization landscape in this Domain
 Create a Group-maintained list of key players: companies, organizations
 Invite key players to join the Forum
 Invite key players to present to the Domain Group on their activities – as members or guests

Analysis
Identify where there are interoperability gaps or misalignments
 What are the clearest problems or opportunities where communication and cooperation can make a difference today?
 Are there standardization organizations working and willing to fill standardization gaps?
 Are industry players willing to cooperate on better alignment on creation and use of best practices or standards?

Action
Initiate Projects to generate and publish work products that foster interoperability
 Publish 'Domain Interoperability Reports' to build industry understanding and consensus on the need and benefit of increased interoperability
 Establish subgroups to deep dive and generate and publish use cases and requirements for needed standardization work
 Initiate testbed/plugfest projects to encourage real-world testing, and publicly release assets and tools for ongoing compatibility
 Promote and publish Domain Group results

Charter Approved and Working Group Formed

Exploratory Group

Ongoing blend of Awareness, Analysis, and Action as the group transitions and grows

Working Group

Page 24

They are looking for a speaker to represent MSF at this virtual conference:

The Metaverse Potential For Good Conference

- [The Metaverse Potential For Good Conference](#), April 26
 - 10.40 AM Australian time (4:40 PM Pacific) via Zoom
- 35-minute solo session – presentation on the Forum and Q&A
 - We can provide the slides that you can present
- Topic:
 - Interoperability and standards: how will we move between virtual worlds, and be able to take our assets with us?
 - The Metaverse, for now, is a siloed collection of separate virtual worlds, rather than one big open platform akin to the internet. This makes transfer of assets between these spaces difficult, limiting their value. How realistic is the vision of the open metaverse?
 - What are the barriers to overcome to enable interoperability between platforms?
 - Protocol standards development
 - Cloud data sharing and the need for 5G network connectivity – how will this level of complexity be handled?

Please let alex@castercomm.com ASAP

If you are willing and able to present at this virtual event

Forum Speaking Opportunities

- The 10th FOKUS Media Web Symposium - June 13-14, in Berlin, Germany (In-Person only)
 - The Fraunhofer Institute will host a Metaverse Standardization panel on "Media meets AI meets 5G meets Metaverse". They have requested someone from the Metaverse Standards Forum to present a high-level talk on the work on Forum and the mission. We are seeking a speaker from the Forum to present
 - They also are hosting a workshop on "Deep Mediaverse – AI for Media and Metaverse" on Day 1 and they are seeking a speaker to deliver a more technical-oriented talk focused on a specific topic (for example "3D Asset Interoperability using USD and glTF", "3D Web Interoperability", "Real/Virtual World Integration", etc).
- [FAST Fest](#) – September 2-4, Myrtle Beach, South Carolina
 - Web3 Expo – they are seeking Keynote presenters, panel participants, moderators and workshop instructors
 - Submit topics and abstracts to jen@ploveranimation.com
- [Web3D Conference](#) - October 9-12 in San Sebastian, Spain
 - They would like to offer space to Metaverse Standards Forum for a half day session on Metaverse
 - Host a Forum meetup
 - They are also looking for Keynote speakers and would possibly like a member to present the keynote
 - Members are also invited to present papers – the deadline to submit is June 15
 - Is there interest from members in hosting a meet up at Web3d Conference? Are you hoping to attend?

Email Alex@castercomm.com or fill out the Google Form

Indicate interest in which event and for what topic
if you are interested in any of these events

Page 26

Meetups and Member Hosted Meetings

- Member Meetups and hosted meetings are welcome!
 - Let us know if the Forum can add value to your event
- [LA Entertainment & Web3 Brand Loyalty Meetup](#) - hosted by CEOSocial.io and Wishknish
 - This is moving to the day before SIGGRAPH - August 5 in LA. This will be both in person and live streamed
 - Register to attend via the [Eventbrite link](#). The location will be updated in the coming weeks
 - Speakers from Wishknish, NBCUniversal, HP, Next Cyber Productions & more
 - Topics: Creating metaverse-ready content and immersive experiences for brand loyalty
- More to come - stay-tuned for these coming soon:
 - Ongoing conversations started with organizers
 - MetaBeat 2023
 - SIGGRAPH 2023 - including Forum BOF
 - Autodesk University
 - Reuters Momentum

At the end of the meeting, someone had asked a question in the Zoom text chat about how discussions would be held to include those in developing countries. Neil mentioned that they'll have multiple meeting options that take into consideration differing time zones (like the APAC & EMEA oversight meetings). I (Josephine) also mentioned that it's helpful to take into consideration different bandwidth capabilities, like when OMI does 'world hops' and we look at how accessible the experience is for different bandwidths and devices (can everyone log in? do settings need to be adjusted? is there a maximum number of users in one space before the experience starts to hiccup?). I also mentioned **@madjin**'s upcoming world hop for MSF (date to come) and invited folks to come. This was an opportunity to plug OMI's mission towards interoperability, and the response was positively received.
