Weekly Meeting 99 is happening on Wednesday, March 14, 2023 from 9:00 AM PST(16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#).

We regularly use the # omi-meeting-chat channel for text chat.

## Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

## Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers
- Review the action items from retro

## Discussions:

- new WG proposals
- [OMI 100](#) is next week!

## Working Group Updates:

- [MSF delegates](#) (setting up the repo)
  - shifting to 501c, applying for a grant (Epic Mega Grants), MSF-update itself
- [glTF Extensions Group](#)
  - update draft protocol submission [🕒 Teleport: a real-time network protocol for VR](#) #356
  - omi\_personality
  - Progress on OMI\_ref and authoring extensions
- [Media Group](#)
- [M3 avatar interop](#)
- [UX Research](#)
- [OMI Website update](#)
- any others?

#### Next week:

- [OMI 100!](#)

#### Future demo themes:

- [OMI-audio-emitter](#) exploration and demo
- [OMI-collider](#) exploration and demo
- [IPSME](#) and Me
- [Generative and AI tooling](#)
- Any other suggestions?

New WG props

We may want to close down some of our WGs and create some new fresh ones. Some proposals include:

- [🕒 Proposing OMI-Experiments group](#) #368
- [🕒 Proposing AI collaboration group](#) #372
- [🕒 Proposed Portals Working Group](#) #209

## MSF updates

- attended the oversight meeting for the Asia region participants
- one slide asked how can we make sure we are inclusive in our membership tiers.
- huge win: allowing groups like ours to participate in oversight without a membership fee.
- Lets get it to policy: establishing a longlasting path for inclusivity like this.
- took some time at the end to showcase [the gltf posters](#) that aaron and jin and others made
- Neil and other leaders were clearly impressed with OMI efforts in the space, and requested a "mind-meld" of OMI groups and MSF groups for more shared knowledge and collaborations. Talking through and showcasing what we are working on.

**MSF Delegates update**

I gave a presentation to the Interoperable Avatars/Characters Group on Monday, got the impression that people were blown away by my presentation since many stayed during the watercooler.

I showed off <https://hyperfy.io/msf> to avatar group yesterday too, describing how [infinite canvas tools](#) can help groups desilo their documentation, onboard faster, make meetings more engaging / productive even

## We think spatially

People have been organizing and processing information spatially for centuries, whether by writing in a notebook or posting paper on walls.

This kind of thinking harnesses areas of the brain dedicated to spatial thinking and mapping relationships.

Art room at Pixar (source)

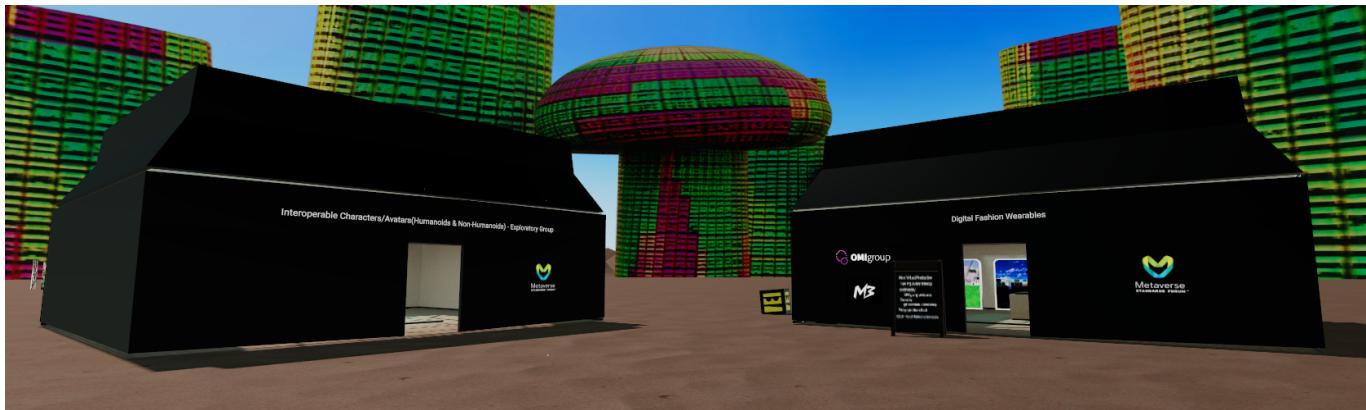

Moodboard for watch design (source)

## Software that mirrors how we think

Traditional tools like text editors and presentation software have linear interfaces that mimic their output.

Infinite canvas tools instead embrace the messy, circuitous paths we take when brainstorming, sketching, and distilling ideas.

I was impressed by the formality and organization of interoperable characters/avatars EG, but also have some feedback overall on how MSF is operating rn and where I think it should be going in terms of direction, will outline a constructive feedback blog post on some suggestions such as virtual expo / conference, mindmeld opportunities, etc.

"When it comes to world hops and wearables, I want us to be more about it instead of talk more about it." - Jin

how can people make standards for interoperable avatars if they don't have one themselves?

## Media

- MTV looking for 1:1 time to meet to advance the media group
- yesterday nobody was at the meeting so can we:
  - ping people on discord when meetings start
  - find a new time to meet as a group and remove the existing.
-

## Meet Pixel in the OMI website

Ant released the sickest update to our site yet! Pixel can answer questions about OMI, and how to get involved.

1. visit <https://omigroup.org/>
2. scroll down to the footer
3. click enter world
4. click into the world and move around your mouse.
5. walk up to the avatar "Pixel" and you can type a question.
6. wait 1-3 seconds.

## 7. Boom! Pixel answers to the best of their ability!
