edited ▾

Weekly Meeting 115 is happening on Wednesday, July 12, 2023 from 9:00 AM PST (16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar [here](#).

We'll be meeting again in the omi-weekly-meeting channel of the [AngellXR/OMI Discord](#). We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- notes from last week: 💬 [07/05/23 Weekly Meeting 114 Notes/Agenda #402](#)
- champions last week: 💬 [OMI Champions Sync July 7, 2023 #404](#)
 - new readme: <https://github.com/omigroup/>
- MSF POG status
 - we are approved and finished with the application.
 - now its time to nominate to the board (I believe, can we confirm?)
- Open Collective Update

Collective pending approval.

Awaiting approval from Open Collective Foundation.

Open Metaverse Interoperability Group (OMI)

RE: Github Copilot Business Accounts for Dedicated OMI Volunteers

- we are voting on approving up to 2 licenses for the tool
- if we need more in the future, we will re-vote and reflect on the prior use of the tool.
- the cost is \$19/mo. per license

- we will define a SOP for the licenses (aka, if we need to transfer a license to a different user in the future)
- we will vote in OMI-Votes on discord

OMI grants (future)

- Boomboxheads [recently tweeted an ask about grants](#) available for interoperability/unity based projects.
- How can we help people like this?

- maybe this is an OMI-experiment worthy task, lets get this in there
- another one: the hackathon / implementation weekend (maybe with a prize?)

updates

- aaron is making a new exporter that lets you add additional information and choose your protocols when exporting gltf settings! Like an interoperable manifest of sorts! (inspired by the blender export settings window)
- jin made a OMI world!

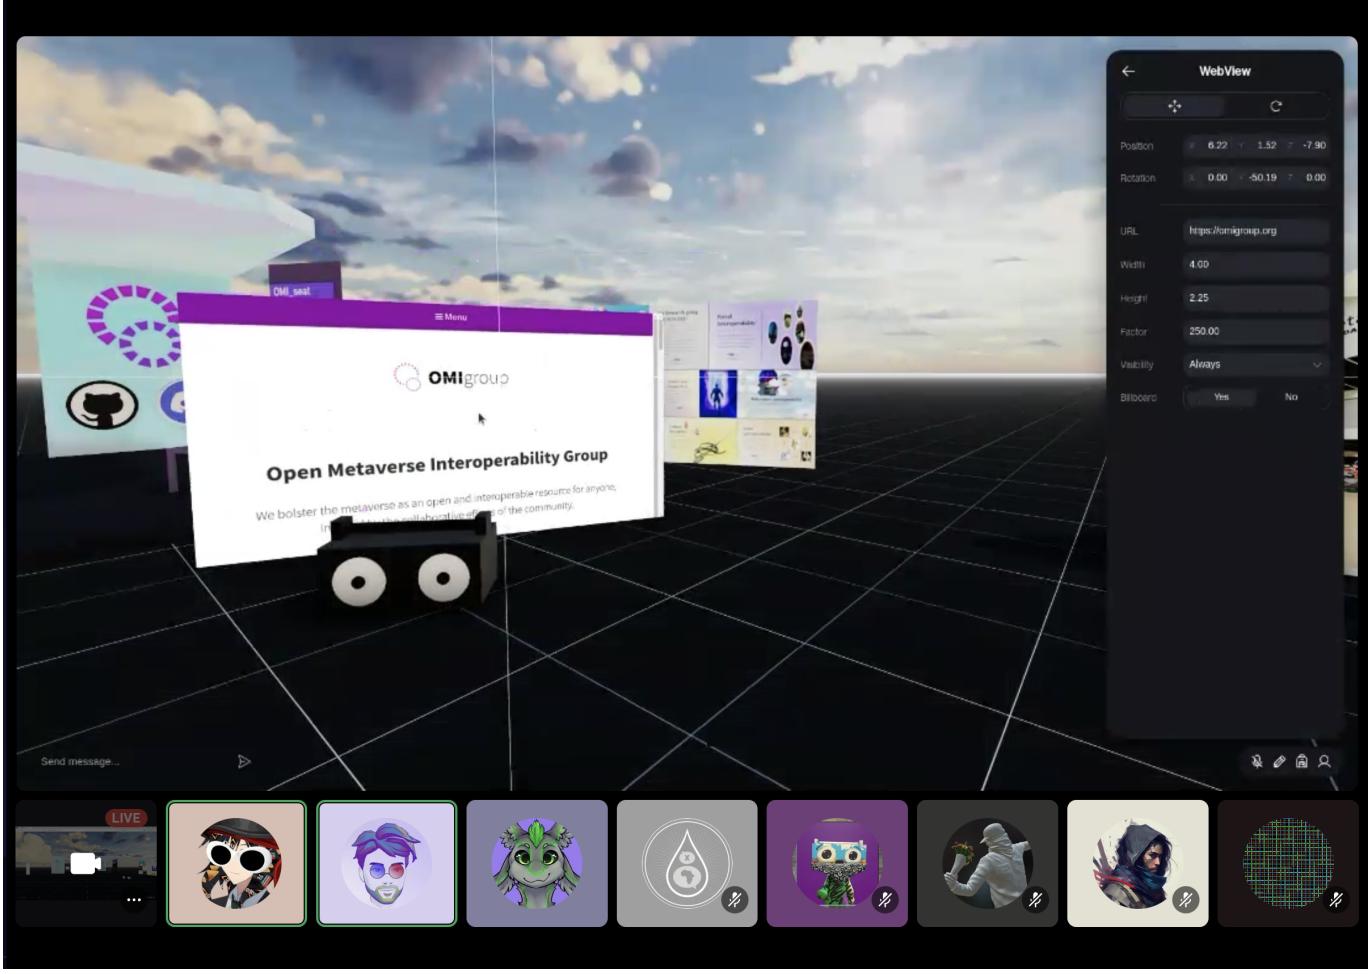

- it has pixel too! (same as our website)

- collaborative whiteboards!

- Portals!
- embedded site!
