Added links to the retro and new working agreement template.

I suggest deprioritizing the working agreement follow up section once we have created one working agreement for one working group, it inky works if it's done collaboratively. I also recommend scanning past agendas for items we may have removed since we are copy pasting the prev weeks agendas as a baseline for each new weeks agenda.

I think the best way to actually talk about what is active, done, or worth prioritizing is to use the backlog in a screen share. If there is time, I propose we take 5 minutes today to groom.

The agenda should almost always coincide with the "active", or "review" tickets.
