11/24/2021 Weekly Meeting 31 Upcoming Agenda #127

mrmetaverse started this conversation in **Weekly Meetings**

---

mrmetaverse on Nov 17, 2021   (Maintainer)   edited ▾

Weekly Meeting 31 is happening on Wednesday November 24th, 2021 from 9:00 AM PDT - 10:00 AM PDT

You can add it to your calendar here.

We'll be meeting again in the omi-weekly-meeting channel of the AngellXR Discord.

Agenda

- Welcome new members and attendance

- Backlog refinement

  - VKet Booth
  - Call for participation: XR Safety Week follow up reminder
  - Suggestion from Thiizic of Futurist Foundation: Partner Program follow up discussion
  - ⊙ **Mapping the Metaverse - a Cross-Industry Leadership from OMI** #109
  - website

- gITF subgroup

  - Khronos Liaison

- Upcoming Events:

  - WebXR Hackathon - "Immersive Web Fest"
  - Avacon
  - others?

- Questions / Decisions:

  - ⊙ **Suggestion: Adopt a Feedback channel on github** #129
  - How about using roles that match up with working groups
  - Do we want to create a working group for OMI-Chan?
  - Do we have any new CFP submissions?

Add Ons

- Github Milestones is a much better way of swarming around sub projects (brief demo)
- Reminder Twitter Spaces with Evo / Jin
  - Jin hosting the first one was on Friday at 2PM ET

Discussed the partnership program:

- We want to caution against creating 1st / 2nd class citizens
- We believe an effort like this would require more discussion
- We opted to vote on if we think this is worth creating a working group to explore further
- antpb has worked on a similar effort before, and expressed interest in helping
- the group voted on forming a group/repo to explore further

Vote failed. Possible weakness in the system.

In order to vote you must attend two weekly meetings in a row. In order to pass, we seek consensus. A vote for no is enough to defer a vote from passing, but we ask the individual to declare why they are voting against the party. Due to the amount of time spent on this one subject today, we opted to move on and push this to next week.
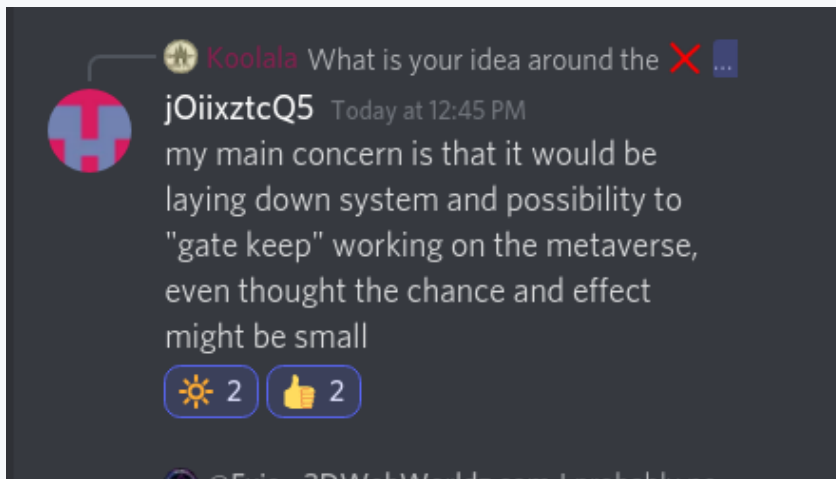

Overall, the group seemed to understand that this is not something we can solve in 5-10 min during our weekly calls, and should be investigated further by a working group if we want to implement anything like a partner program.

We will resume discussion next week.

Good reason!

Again, we don't want to ultimately create exclusionary systems. However, that should be a constraint assigned to the working group. Worth discussing more before next vote.
