02/01/23 Weekly Meeting 93 #334

mrmetaverse started this conversation in **General**

---

mrmetaverse on Feb 1   Maintainer

Weekly Meeting 93 is happening on Wednesday, February 1, 2023 from 9:00 AM PST(17:00 UTC) - 10:00 AM PST (18:00 UTC)

You can add it to your calendar here.

We'll be meeting again in the omi-weekly-meeting channel of the AngellXR/OMI Discord.
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- Volunteer to take notes? Volunteer to record?
- Welcome newcomers

Working Group Updates:

- MSF delegates (setting up the repo)
- UX Research
- Scripting group
- glTF Extensions Group
  - Progress on OMI_ref and authoring extensions

- Media Group
- M3 avatar interop
- OMI Website update
- any others?

Discussions:

- Retro is today week at 22:05 UTC on 2/1/23
- 100 week celebration?
- Let's build

Next week:

Future demo themes:

- `OMI-audio-emitter` exploration and demo
- `OMI-collider` exploration and demo
- `IPSME` and Me
- `Generative and AI tooling`
- Any other suggestions?

MSF Delegates

- attended last meeting around tiered fees and criteria.
  - OMI could be exempt from these fees for example.
  - sub-committee formed to exempt organizations
    - what are they doing in the space
    - how are they making an impact
    - maybe a scored matrix
      - some push-back that it should be quantifiable
      - pushing to have it be both qualifiable AND quantifiable.
    - This is **super important**.
      - Right now, any independent creators or orgs who isn't able to pay dues, are being directed to join OMI by Neil.
      -
    - as it stands, OMI could barely pass the solely-quantitative requirements.
      - is OMI officially 501-c3?
      - Open Collective is the official fiscal sponsor, we can receive non profit donations through open collective.
      - someone out of Metaverse scope but more Non-profit-official could have an easier time (and that isn't right, this is our domain/purpose regardless of filing status).

How you can help:

- We need help drafting and editing the no-due criteria doc

- Please reach out to the MSF-Delegates.

Retro is today/tonight

- can we improve the onboarding experience/documentation?

6:45p update: That was a great retro. Thank you so much to all who showed up! We have so many suggestions for our future, and I want to continue this discussion in two weeks time. Same time 22:05 UTC Wednesday 2/15/23 https://github.com/orgs/omigroup/projects/13/views/1

mrmetaverse on Feb 1   Maintainer   Author

is scripting active?

mrmetaverse on Feb 1   Maintainer   Author

glTF group

- experimented with Mozilla hubs new extensions
- possibly to add animation clips on top of VRM-like models

M3-avatar

Built a great avatar space to try on different VRMs!

WebGL / WebGPU Jan 2023 meetup highlights

The Khronos WebGL/WebGPU meetup is a recurring online event where the folks working on these web graphics API's share updates followed by talks from the community.

Here I've summarized my personal highlights & takeaways from this week's meetup.

Recording link: <*will add it here once Khronos publishes it*>

For my past event recaps, see April 2022, January 2022, July 2021.

Hack together session: Migrating OMI to a new server or Element?

- Testing a Matrix/Element Migration for our discord: https://matrix.to/#/#OMI:matrix.org
- create a matrix bridge between the two general channels.
  - testing the migration/resistance?
