indiebio 3 weeks ago   edited ▾

Bom ano!

Weekly Meeting 140 is happening on Wednesday, 3 January, 2024 from 9:00 AM PDT (16:00 UTC) - 10:00 AM PDT (17:00 UTC)

You can add it to your calendar here.

We'll be meeting again in the omi-weekly-meeting channel of the AngellXR/OMI Discord.
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:
The Open Metaverse Interoperability Group (OMI) is focused on building the metaverse. Whatever that means to you, you're welcome here (T&Cs and Code of Conducts apply). What do you like doing?

(bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.)

We are concerned about practical standards, and helping grassroots members. We have a seat at MSF and are part of the W3C by charter. We intend to serve as a social connection between the different organisations, as a less formal organisation.

If you're an observer or here for the first time, this is a general community meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in the 🔊 omi-weekly-meeting chat as we dive into the agenda items.

Agenda

1. Admin
   What is the blocker for starting up a new discord server and get it ready so long (not invite people yet)?
   What mailing list service to use? MailChimp? Discourse?
   Can we start up a Matrix server/instance and get it ready so long (not invite people yet)?
   Can we move the Mastodon server?
   Move time for backlog meeting, OR record a demo for async partipation?

2. Ongoing work:
   Please look at the Awesomeness Directory, share on omi-media if you want to be on here, or edits, add pics
   etc: https://hackmd.io/@indiebio/awesomeness-page. Where to host this? on the OMI website, hackmd,
   github?

Frequent (monthly?) Outreach: Twitter spaces? Podcast? Publish these meeting recordings on podcast? Have
conversations on podcast, with invited speakers?

3. Working group check-ins

4. omi-experiments check-ins
   *Working on something new? Have something to show off? Want help tinkering and building? You've found the right
   place!*
   Recently active threads:
   nostr conversation on omi-general

omi-map-metaverse highlights - keyframe and avatarjoy
https://discord.com/channels/770382203782692945/908045683716681729/1183891423838343338

Game spaces: Ideas on what to host in metaverse chill spaces for community building.

5. Conversation

Whats the top two priorities for OMI? And what's the top two most urgent priorities for OMI right now?
Past conversation - #431 (comment)

6. What have people been up to over the past few weeks in the wider world? Fun finds?

TODO:

- Learn more about W3C, clean up page
- "map of open metaverse components?" - "Is there a "map the open metaverse" thing anywhere? By this I do
  NOT mean virtual worlds, it may have a small category listing those - e.g. Overte, V-Sekai, but I mean the
  protocols and tools that can help build the metaverse, from a FOSS perspective. So Blender, Inkscape, Godot,
  the glTF specs, and then the more behind-the-scenes stuff, like networking infrastructure, cloud stuff
  (Kubernetes?) ... stuff like that. "
  Layl at OMF: "Mapping missing components different ecosystems need but feel are missing to interoperate
  would be useful "

Process the OMI map, a sort of a vision board for what OMI wants to achieve -
https://www.figma.com/file/6F0kdsO2o4D97RT74m7KkK/OMi-OKR-Workshop-Part-III?type=whiteboard&node-
id=0-1&t=sEF02fAfsr7c1x7U-0
Do a weekly casual chat / Asia-sync (on Twitter Spaces?) Suggest 09:00 UTC. jimmy - info on Twitter spaces?
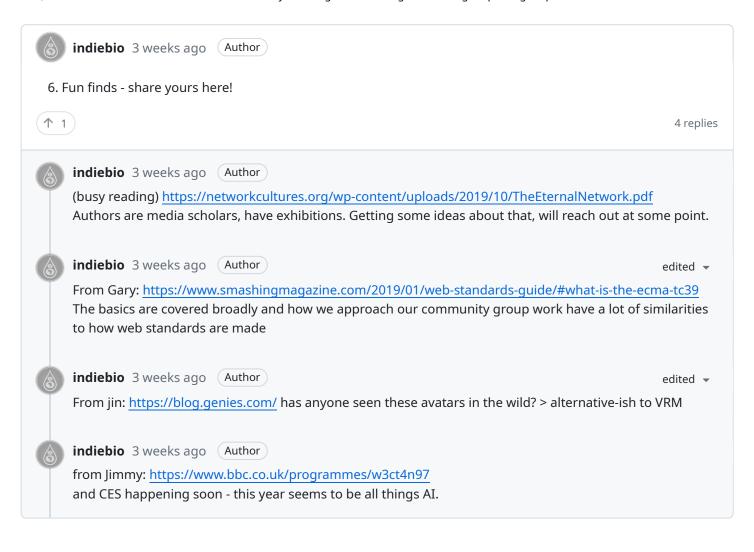

Past meeting: https://hackmd.io/@XR/omigroup/https%3A%2F%2Fhackmd.io%2F@XR%2Fomi_10-12-23 - needs
updating
and #433

(busy reading) https://networkcultures.org/wp-content/uploads/2019/10/TheEternalNetwork.pdf
Authors are media scholars, have exhibitions. Getting some ideas about that, will reach out at some point.

From Gary: https://www.smashingmagazine.com/2019/01/web-standards-guide/#what-is-the-ecma-tc39
The basics are covered broadly and how we approach our community group work have a lot of similarities
to how web standards are made

From jin: https://blog.genies.com/ has anyone seen these avatars in the wild? > alternative-ish to VRM

indiebio 3 weeks ago   `Author`

from Jimmy: https://www.bbc.co.uk/programmes/w3ct4n97
and CES happening soon - this year seems to be all things AI.

1. mrmetaverse to revisit intro to backlog stuff in February - to facilitate small tasks and get a dopamine hit for
   ticking tasks off!

Interoperability in social media??
OMI meetings in the metaverse?
There may be a Discord server for OMI that has been set up in the past.

indiebio 3 weeks ago   `Author`

TODO: set up new Discord server in the next week. Next week we tell people where it is, to test. But actual
moving is a process, needs to be coordinated. Not a "quick" thing, can do a re-direct, note, some channels,
and encourage people over a period of time to go to Discord.
Once Discord is set up, can start with blogs, publicity, mailing lists etc.

indiebio 3 weeks ago   `Author`

There is a reddit community too.

indiebio 3 weeks ago   Author

TODO: research mailing list options. - media team.
We do not have an email resource. Could be W3C? Gmail? Wordpress - mailing list? The website is
wordpress.
Mailchimp?
Discourse?

indiebio 3 weeks ago   Author

> OMI meetings in the metaverse?
> Maybe "3D related things" happen in virtual worlds, but others, in Discord.

indiebio 3 weeks ago   Author

Demo: Aaron https://docs.themirror.space/docs/script/api_reference#omi_seat
