If you want your own NPO, you need a board.

Dream: Have a network of Fiscal Sponsors in all regions in the physical world, to work for whoever, where they are.
I'm sortof thinking of post office savings things. Simple, near you.
With our global network, some of us can champion each region. Probably by contacting a metaverse appropriate fiscal sponsor in their geographical region.

indiebio 2 days ago   (Maintainer)   (Author)

There are smaller foundational NPO org's in MSF who can help with resources

DAOs also an option to explore, likely as a complement rather than an alternative.

glTF! meeting was transcribed - thanks aaron and Gary.
Discussed different aspects, like asset slice numbers. Then people need to do a lot of work getting an asset game-ready. Yank and aaron discuss options, to reduce (not avoid!) human labour.

Khronos meeting was good, discussed how to get the underlying decisions articulated. We're going to try pilot an AI summary to show how it could work, with human oversight.

meta-org (incl Khronos, MSF...), - funksoup is back, yay!

Khronos (glTF) meeting was good, discussed how to get the underlying decisions articulated. We're going to try pilot an AI summary to show how it could work, with human oversight.

Purpose is to improve the health of the metaverse ecosystem!

Virtual Worlds Museum™ and The Teleportal updates!
Too many to mention, summarised in Keyframe's newsletter:
https://keyframe-entertainment.com/keyframe-blog-october-2025/

Solo: The world on Gaussian splats! Feedback from avatar market, people were mostly setup, but needing better, more realistic FX
cool papers! e.g. one on "Diff Human"
Animated gaussian splats ... https://diffuman4d.github.io/
