07/05/23 Weekly Meeting 114 Notes/Agenda #402

mrmetaverse started this conversation in **General**

mrmetaverse 5 hours ago   Maintainer   edited ▾

Weekly Meeting 114 is happening on Wednesday, July 5, 2023 from 9:00 AM PST (16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar here.

We'll be meeting again in the omi-weekly-meeting channel of the AngellXR/OMI Discord.
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

Dear colleagues,

Thanks for submitting the POG information.

We have accepted "Metaverse Interoperability Community Group (Open Metaverse Interoperability Group, OMI)" as a MSF PoG according to our procedures here .

The list of approved POGs is published on our web site and will gradually be updated over time.
We will also offer the ability to change information of your POG, an advanced register system is under development.

Meanwhile, to initiate the submission of Standards-related Publications and Projects (SPPs), we have created an online spreadsheet for each approved POG, yours is here. Write access is restricted to your Designated Representatives in to. This is a temporary solution and a more user friendly and advanced system is currently under development. However, we would like to invite you to fill in selected SPPs with all the requested metadata. We will then review the data, and if appropriate and complete, add this to our database and soon also publish on our web site.

Should you have any issue on the submission, or comments on the form, feel free to respond to this e-mail or add comments to the git issue here.

Best regards,

The MSF Register Working Group

to me, operations@lists.metaverse-standards.org ▾

Hello,

We are delighted to invite you, an esteemed Principal member, to step up and secure your position as a Founding Principal Member of the newly incorporated Metaverse Standards Forum. Founding Principal Members sit at the forefront of our unique industry initiative and have an opportunity to influence the future direction of the metaverse alongside industry trailblazers such as CableLabs, Cesium, Huawei, Lamina1, LG Electronics, Microsoft, Nokia, Open Geospatial Consortium, Qualcomm, Spatial Web Foundation, Sony, Tencent, VRM Consortium, and others.

Principals play a key role in Forum oversight with voting rights in member plenary meetings, voting participation in the Forum Oversight Committee that manages the Domain Group Pipeline, and the right to stand for election to the Board of Directors and COPP Advisory Panel, and vote in Board and Advisory Panel elections.

Right now, there is a 10% discount on membership dues for Principal members executing the new membership agreements before July 18, 2023.

More details available here:
- an updated 'Join the Forum' page with information about membership tiers and dues and the Forum organizational updates
- a Web Form to apply and execute the new membership agreement online
- the Forum incorporation press release

Let us know if you have any questions – we appreciate your support!

Thank you!
Ann Thorsnes

Media group

Discussed world building and how it can improve media production, some assets / tools that can be built:

- ⊙ **GitHub markdown notes -> Force graphs** omi-archive#6

- ⊙ **Experiment with word clouds** omi-archive#5

Avatar Interop Group

Activity on the github: https://github.com/MetaverseStandards/Avatar-Wearables/discussions

Working on converting the knowledge base into knowledge space, 2.0 version

glTF extensions group

Still working on changes with physics shape, spent entire last meeting talking about it
