    5. Ongoing Conversations
        -- Lightning talks - to plan next: a hackathon to let people practice through their interview questions, and an end to end kind of sweep to find out the resources on how to do this - by practising with locals first - streamline the resources required. (Also good for thinktank conversations)
        -- Collaborative Library Project - potential to link up with Virtual Worlds Museum?
        -- "if a blogpost was a 3D object, what would it look like?" - hackathon potential!
        -- Linux Foundation collaboration / OMF revival - see Discord conversation

Last week's notes: #465
Meeting recordings are at https://mee6.xyz/en/dashboard/887789163045335081/record
