Putting forward a few org development tools/resources that we may want to consider:

https://opencollective.com/ (open transparent accounting, free solution for orgs)

https://platform.coop/ (is this the type of decision making style we are interested in adopting for charter?)

Network Weaving (strategy and map analysis of our current network & trajectories) https://networkweaver.com/store/ for free resources and see attached drive doc https://docs.google.com/presentation/d/1W-82gd5woXKMpA6B83MWmfrX9US0chzJ5KCZRXBLpns/edit#slide=id.g7aac9b8b44_0_0 for how and when/why to use this strategy for co-development structure and planning

I want to bring this into the public consciousness so that we can get a useful spec out there to establish our process and fail faster.
