06/14/23 Weekly Meeting 111 Notes/Agenda #397

mrmetaverse started this conversation in **General**

mrmetaverse last week　Maintainer　edited ⌄

Weekly Meeting 111 is happening on Wednesday, June 14, 2023 from 9:00 AM PST (16:00 UTC) - 10:00 AM PST (17:00 UTC)

You can add it to your calendar here.

We'll be meeting again in the omi-weekly-meeting channel of the AngellXR/OMI Discord.
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:

The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

If you're an observer or here for the first time, this is a meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We welcome you to introduce yourself in #omi-meeting-chat as we dive into the agenda items. There will be an open floor in the last 15 minutes of the meeting (agenda permitting) where we can discuss any items you feel are relevant to the current or near future OMI goals.

Agenda

- 501c3 OC filing ⊙ **Vote passed: apply for 501c3 fiscal sponsorship under OC** #376 (DONE)
- ⊙ **Once 501c3 is in place, which grants do we want to apply for first?** #362
- ⇄ **OMI_collider and OMI_physics_body** KhronosGroup/glTF#2258 (comment)

UPDATES:

- MSF delegates
- Media group
- Avatar interop group
- GLTF group

- World Hops

Encouraging other bodies to adopt and use announcement channels. MSF is still fairly email based, would be nice to subscribe to each others announcement channels.

Show up! Showing up at MSF events and discussions has made it much easier to get items of interest added to their agenda. Participating in each others communities is the best way to communicate and drive collaborative change.

> Showing up with an agenda helps a lot with managing burnout. What is your focus? If we are all spread thin, show up with a context to help manage your engagement in a healthy way.

NSF offers so many grants that could cover much larger efforts. #362

Not technical? Your voice still matters. Often the biggest blockers we see or experience are due to miscommunication. Having more diverse opinions in the room can help provide insights that would otherwise not be accounted for. We want to ensure what we create and co-create are well-rounded, and easier to understand and implement.
