# 2023-12-05 Weekly Meeting 136 Notes/Agenda #430

**indiebio** started this conversation in **Weekly Meetings**

**indiebio**  on Dec 5, 2023                    edited ⌄

Meetings are back on Wednesdays, sorry for the runaround.

Weekly Meeting 136 is happening on Wednesday, 5 December, 2023 from 9:00 AM PDT (16:00 UTC) - 10:00 AM PDT (17:00 UTC)

You can add it to your calendar here.

We'll be meeting again in the omi-weekly-meeting channel of the AngellXR/OMI Discord.
We regularly use the # omi-meeting-chat channel for text chat.

Who we are and why we're here:
The Open Metaverse Interoperability Group (OMI) is focused on bridging virtual worlds by designing and promoting protocols for identity, social graphs, inventory, and more. Our members include businesses and individuals working towards this common goal.

We are concerned about practical standards, and helping grassroots members. We have a seat at MSF and are part of the W3C by charter. We intend to serve as a social connection between the different organisations, as a less formal organisation.

If you're an observer or here for the first time, this is a general community meeting where people who work on the OMI group initiatives discuss updates and contribution opportunities for current projects and goals. This is your chance to jump in and help!

We're glad you're here. What do you like doing?

We welcome you to introduce yourself in the 🔈 omi-weekly-meeting chat as we dive into the agenda items.

## Agenda

1. Backlog tasks list to be revived:

- do we want a matrix server and keep a little space here in discord that tells people where OMI has moved?
- do we also want a discord too?
- Create mailing list
- clean up W3C page
- Move Mastodon server: mrmetaverse has two reserved apparently. openmetaverse:mastodon
- when something happens, write a brief blog and tweet and post for our discord/matrix

- Open Collective switch to 501c3
  indiebio and mrmetaverse will reach out to make the switch!
- Post blog about the new chair election and thanking the previous - [draft ready](), just needs new Discord and a mailing list.
- create a blog announcing the new OMI discord or matrix.
- Post blog about moving to a new server - [early draft here]()
- Post blog announcing our end of 2024 goals for a metaverse conference in the Metaverse
- we will send out a email newsletter to our combined list from W3C and Discord. We will send an email and a tweet and a matrix post for every new blog. and then a roundup every 3-4 blog posts.

2. For discussion:
   Do we want Discord AND Matrix?
   Can we create a new discord server so long to get started setting it up?
   Which mailing list - MailChimp?
   Attendance Screenshots - should we do this again?

3. First stab at Awesomeness page: [https://hackmd.io/@indiebio/awesomeness-page](https://hackmd.io/@indiebio/awesomeness-page). Where to host this? on the OMI website, hackmd, github?

Working groups are formal, #omi-experiments are informal. Working groups are for when you need a github repo or other resources.

4. Working group check-ins

5. omi-experiments check-ins
   *"Working on something new? Have something to show off? Want help tinkering and building? You've found the right place!"*
   Recently active threads:
   [Game spaces:]() Ideas on what to host in metaverse chill spaces for community building.

6. What have people been up to this week in the wider world out there? Fun finds?

7. What would you do with $10m? No wrong answers.

TODO:

- Learn more about W3C, clean up page
- Find the OMI map, a sort of a vision board for what OMI wants to achieve - still need to find it.
- Do a weekly casual chat / Asia-sync (on Twitter Spaces?) Suggest 09:00 UTC. jimmy - info on Twitter spaces?

Past meeting: [https://hackmd.io/@XR/omigroup/https%3A%2F%2Fhackmd.io%2F%40XR%2Fomi_10-12-23](https://hackmd.io/@XR/omigroup/https%3A%2F%2Fhackmd.io%2F%40XR%2Fomi_10-12-23) and [#429]()

In that first meeting, Robert had some takes on smaller protocols we could focus on:

OMI is not a company. We do not invest in businesses. We co-create - protocols, and whatever. We do not want to define the metaverse, and have so many people disagree. We want to meet people where they are.

**indiebio**  on Dec 6, 2023   Author

2. Matrix - can open Matrix up to other standards groups as well, to bridge - because our stated vision includes being a social connection, bringing people into a neutral zone.

Don't want to be spread too thin, can only realistically connect to 3 to 5 channels.

**indiebio**  on Dec 6, 2023   Author

Protocols not being implementing could be because:

1. People don't know about us
2. People don't understand what we're saying
3. People don't like us

Before you catastrophise about the third one, work on the first two!
