TIME ZONE MESS lol

GDC is this week! Get your tickets, and expect attendance to be lower.

For the next two weeks or so, the time zones are not aligned, with the daylight savings thing.

Weekly Meeting 203 is happening on Wednesday, 19 March 2025 from 9:00 AM PDT (17:00 UTC) - 10:00 AM PDT (18:00 UTC)

You can add it to your calendar here.

We'll be meeting in the omi-weekly-meeting channel of the OMI Discord.
We regularly use the # omi-meeting-chat channel for text chat.

BIG NEWS! 💫
We are thrilled to announce that Virtual Worlds Museum™ Spotlight: Arrival.Space has been nominated at the New Media Film Festival 2025 in Los Angeles!

This incredible festival, judged by industry leaders from Marvel, HBO, PBS, BBC, the Emmys, Rolling Stone, and more, celebrates the intersection of storytelling & technology—a miss...

jimmy's been working on a Discord summary newsletter, getting there. Raw data is delivered:
https://discord.com/channels/887789163045335081/1207388761806217256/1351965816077422692

We hope this can serve as a digest of what is happening in the channels. Like a one pager of the topics that came up this week, and have the ability to go dive in and add your own opinions.
So it can serve as a hook.

>
> feedback: try not to think of it is HAVE to fill content to fill a week "the 5pm news" problem.
>
> Don't do "filler" how do we get people to join in, speak up? We don't want to try and pretend to be big corporate and so active, we don't want to be inauthentic.
>
> **indiebio** yesterday   (Maintainer) (Author)
>
> Walls of text can be brought to weekly meeting townhall, to discuss and make it more accessible.
>
> **indiebio** yesterday   (Maintainer) (Author)
>
> a longer version of the self-interview, but these questions are also good potential "filler" to get people to share their views. Can include one or a few in a newsletter.

"When you say 'metaverse,' what's the single most important feature or characteristic you think of?"
"Can you give me an example of something that is definitely not part of your definition of the metaverse?"
"What's the biggest misconception you think people have about the metaverse?"
"Imagine the metaverse is wildly successful in 10 years. What does that look like to you? Describe a typical day for a user."
"What's the biggest obstacle to achieving your vision of the metaverse?"
"If you could wave a magic wand and solve one problem related to the metaverse, what would it be?"
"Who benefits most from your vision of the metaverse? Who might be left out?"
"What is your definition of 'interoperability' in the context of the metaverse?"
"What role, if any, should governments/regulators play in the metaverse?"
"What are the key technologies required for your vision of the metaverse?"

(summary framing)

Your core definition of the metaverse.
Your key priorities and goals for the metaverse.
Any unique or unusual aspects of your vision.
Potential points of agreement or disagreement with other common views on the metaverse (infer these based on your understanding of common metaverse discussions).
Any concerns or challenges you raised.

there's a self-interview that is a lot of fun:

Share Your Metaverse Vision: A Quick Self-Interview (Discord-Friendly!) [META-DISCUSSION]
