meta conversation about how to keep in touch - related to wiki
there's no "table of contents"
A lot of the interaction happens "by accident"

How do we create a space where new people are welcome
OMI does not "decree" how to think about metaverse, and what to build. We simply facilitate whatever people
want to do, we provide community. The rest is up to members.
metafor with Open Collective where OC manages finances, OMI manages ideas. There is overhead on both.
It's a proactive effort to facilitate the engagement.
